APPROVAL OF CONSOLIDATED FINANCIAL STATEMENTS

APPROVAL OF ACCOUNTING OFFICER

I am responsible for the preparation of these annual consolidated financial statements for the year ended 30 June 2023, which are set out on pages 1 to 105 in terms of Section 126 (1) of the Municipal Finance Management Act and which I have signed on behalf of the Economic Entity. The annual consolidated financial statements have been prepared in accordance with GRAP.

I acknowledge that I am ultimately responsible for the system of internal financial control and that the system of internal control provides reasonable assurance that the financial records can be relied on.

I have reviewed the Economic Entity's cash flow forecast for the year to 30 June 2024 and am satisfied that the Economic Entity can continue in operational existence for the foreseeable future.

The external auditors are responsible for independently reviewing and reporting on the Economic Entity's consolidated financial statements.

I certify that the remuneration of Councillors and in-kind benefits are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Officer Bearers Act and the Minister of Provincial and Local Government's determination in accordance with this Act.

MR MP Nonjola Municipal Manager 30 November 2023

CONSOLIDATED STATEMENT OF COMPARISON OF BUDGET AND ACTUAL AMOUNTS

STATEMENT OF FINANCIAL POSITION AT 30 JUNE 2023

ECONOMIC ENTITY

The Consolidated Statement of Comparison of Budget and Actual Amounts is disclosed in terms of paragraph 32 of GRAP 24. Paragraph 32 of GRAP 24 states that separate budgets may be recompiled in order for consolidated disclosure purposes. The Economic Entity did not prepare a Consolidate Budget and therefore opted to apply paragraph 32 in order to recompile a consolidated budget based on the approved budgets of Joe Gqabi District Municipality and Joe Gqabi Economic Development Agency (SoC) Ltd (hereafter referred to as "JoGEDA").

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2023

1 ACCOUNTING POLICIES

1.01 BASIS OF PREPARATION

The financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention, unless specified otherwise.

The financial statements have been prepared in accordance with the Municipal Finance Management Act (MFMA) and effective standards of Generally Recognised Accounting Practices (GRAP), including any interpretations and directives issued by the Accounting Standards Board (ASB) in accordance with Section 122(3) of the Municipal Finance Management Act, (Act No 56 of 2003).

Accounting policies for material transactions, events or conditions not covered by the GRAP reporting framework, have been developed in accordance with paragraphs 8, 10 and 11 of GRAP 3 and the hierarchy approved in Directive 5 issued by the Accounting Standards Board.

Assets, liabilities, revenue and expenses have not been offset, except when offsetting is permitted or required by a Standard of GRAP.

The accounting policies applied are consistent with those used to present the previous year's financial statements, unless explicitly stated otherwise. The details of any changes in accounting policies are explained in the relevant notes to the financial statements.

A summary of the significant accounting policies, which have been consistently applied except where an exemption has been granted, are disclosed below.

1.02 TRANSITIONAL PROVISIONS

The Economic Entity resolved to take advantage of the following transitional provisions:

In term of Directive 7 - "The Application of Deemed Cost on the Adoption of Standards of GRAP", the Economic Entity applied deemed cost to Investment Property, Property, Plant and Equipment and Intangible Assets where the acquisition cost of an asset could not be determined.

1.03 PRESENTATION CURRENCY

The financial statements are presented in South African Rand, rounded off to the nearest Rand, which is the Economic Entity's functional currency.

1.04 GOING CONCERN ASSUMPTION

These financial statements have been prepared on a going concern basis. The expectation that the Economic Entity will continue to operate as a going concern for at least the next 12 months.

1.05 COMPARATIVE INFORMATION

1.05.1 Prior year comparatives

When the presentation or classification of items in the financial statements are amended, prior period comparative amounts are restated, unless a standard of GRAP does not require the restatements of comparative information. The nature and reason for the reclassification is disclosed.

Where material accounting errors, which relate to prior periods, have been identified in the current year, the correction is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly.

Where there has been a change in accounting policy in the current year, the adjustment is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly.

1.05.2 Amended Accounting Policies

Amendments to accounting policies are reported as and when deemed necessary based on the relevance of any such amendment to the format and presentation of the financial statements. No significant amendments were made to the accounting policy in the current year.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2023

1.06 CONSOLIDATED FINANCIAL STATEMENTS

The Economic Entity's financial statements incorporate the financial statements of the parent entity, Joe Gqabi District Economic Entity, and all its municipal entities, presented as a single entity and consolidated at the same reporting date as the parent entity.

Municipal entities are all controlled entities over which the Economic Entity has ownership control or effective control to govern the financial and operating policies of such controlled entities so as to benefit from its activities.

All inter-entity transactions and balances, unrealized gains and losses within the Economic Entity are eliminated upon consolidation. Where appropriate the accounting policies of controlled entities conform to the policies adopted by the Economic Entity.

1.07 MATERIALITY

Material omissions or misstatements of items are material if they could, individually or collectively, influence the decision or assessments of users made on the basis of the financial statements. Materiality depends on the nature or size of the omission or misstatements judged in the surrounding circumstances. The nature or size of the information item, or a combination of both, could be the determining factor. Materiality is determined as 1% of total operating expenditure. This materiality is from management's perspective and does not correlate with the auditor's materiality.

1.08 BUDGET INFORMATION

Budget information is presented on the accrual basis and is based on the same fiscal period as the actual amounts.

The Consolidated Statement of Comparison of Budget and Actual Amounts includes the comparison between the approved and final budget amounts, as well as a comparison between the actual amounts and final budget amounts.

The disclosure of comparative information in respect of the previous period is not required by the Standards of GRAP.

1.09 NEW STANDARDS, AMENDMENTS TO STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE

1.09.1 Effective dates determined

Where a Standard of GRAP has been issued but is not yet effective, the Economic Entity may resolve to early adopt such a Standard of GRAP if an effective date has been determined by the Minister of Finance.

The Economic Entity resolved to early adopt the Improvements to the Standards of GRAP (2020) which were issued but are not yet effective. The improvements affected the following Standards of GRAP:

Standard	Description	Effective Date
GRAP 5	Borrowing Costs	1 April 2023
GRAP 13	Leases	1 April 2023
GRAP 16	Investment Property	1 April 2023
GRAP 17	Property Plant and Equipment	1 April 2023
GRAP 20	Related Party Disclosures	1 April 2023
GRAP 24	Presentation of Budget Information in Financial Statements	1 April 2023
GRAP 31	Intangible Assets	1 April 2023
GRAP 32	Service Concession Arrangements: Grantor	1 April 2023
GRAP 37	Joint Arrangements	1 April 2023
GRAP 106	Transfer of Functions Between Entities Not Under Common Control	1 April 2023
Directive 7	The Application of Deemed Cost	1 April 2023
Guideline	Accounting for Landfill Sites	1 April 2023

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2023

1.09 NEW STANDARDS, AMENDMENTS TO STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE (CONTINUED)

The Economic Entity also resolved to early adopt the following Interpretation of the Standards of GRAP which were issued but are not yet effective:

Standard	Description	Effective Date
igrap 21	The Effect of Past Decisions on Materiality	1 April 2023

The Economic Entity further resolved to early adopt the following Amendments to the Standards of GRAP which were issued but are not yet effective:

Standard	Description	Effective Date
GRAP 1 (2019)	Presentation of Financial Statements	1 April 2023

The effect of the above-mentioned pronouncements to the Standards of GRAP which were early adopted is considered insignificant. The early adopted pronouncements mainly relate to the clarification of accounting principles.

The Economic Entity further resolved not to early adopt the following Standard of GRAP which was issued but is not yet effective:

1.09.1 GRAP 104 (Revised 2019) - Financial Instruments (effective 1 April 2025)

The objective of this Standard is to establish principles for recognising, measuring, presenting and disclosing financial instruments. This Standard was revised to align it with IFRS 9 on Financial Instruments.

The impact of the revised Standard may be significant on the financial statements, due to the following key changes to the Standard:

- (a) Changes in the classification of instruments for subsequent measurement financial assets are measured at either amortised cost or fair value based on the reason why they are held and their economic characteristics. Specific liabilities are measured at fair value, and all others are measured at amortised cost.
- (b) The approach to impairing financial assets changed from an incurred loss to an expected loss model. As indicated in the name, expected losses estimate the expected default of financial assets over a period of time rather than only recognising an impairment loss when an event occurs.
- (c) Loan commitments and financial guarantee contracts are recognised and measured differently. They are no longer in the scope of GRAP 19 on Provisions, Contingent Liabilities and Contingent Assets. When entering into these transactions there is an economic consequence that exposes an entity to risk. Accounting for them as financial instruments best captures this risk exposure.
- (d) With the changes in the classification of instruments and impairment approach, there is new information that GRAP 104 requires entities to disclose.
- 1.09.2 GRAP 25 (Revised 2021) Employee Benefits (effective 1 April 2023)

The objective of this Standard is to prescribe the accounting and disclosure for employee benefits. This Standard was revised to align it with IPSAS 39 on Employee Benefits.

The impact, other than additional disclosure, of the Standards on the financial statements will be not be significant.

1.09.3 iGRAP 7 (Revised 2021) - The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their interaction (effective 1 April 2023)

This Interpretation addresses the following:

- (a) When refunds or reductions in future contributions should be regarded as available in accordance with the definition of the asset ceiling.
- (b) How a minimum funding requirement might affect the availability of reductions in future contributions.

No significant impact is expected as the Economic Entity's current treatment is already to a large extent in line with the Interpretation's requirements.

1.09.2 Effective dates not yet determined

Where a Standard of GRAP has been issued but is not yet effective and the Minister of Finance has not yet determined an effective date for implementation, the Economic Entity may select to apply the principles established in that standard in developing an appropriate accounting policy dealing with a particular section or event.

The following Standards of GRAP have been issued but are not yet effective as the Minister of Finance has not yet determined the effective date for application:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2023

1.09 NEW STANDARDS, AMENDMENTS TO STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE (CONTINUED)

1.09.2.1 GRAP 103 (Revised 2022) - Heritage Assets

The objective of this Standard is to prescribe the accounting treatment for heritage assets and related disclosure requirements.

The impact of this Standard on the financial statements will not be significant, as the Economic Entity does not have any assets that meet the definition of a heritage asset as prescribed per GRAP 103.

1.09.2.2 Amendments to GRAP 1 on Presentation of Financial Statements (2022)

The amendments to the Standard clarifies how to apply going concern assumption in the public sector and improve disclosure on related judgements and conclusions.

The impact of these amendments to the Standard on the financial statements will not be significant.

1.10 INVESTMENT PROPERTY

1.10.1 Initial Recognition

Investment property includes property (land or a building, or part of a building, or both land and buildings held under a finance lease) held to earn rentals and/or for capital appreciation, rather than held to meet service delivery objectives, the production or supply of goods or services, for administration purposes, or the sale of an asset in the ordinary course of operations. Property with a currently undetermined use, is also classified as investment property.

Investment property is recognised as an asset when it is probable that the future economic benefits or service potential that are associated with the investment property will flow to the Economic Entity, and the cost or fair value of the investment property can be measured reliably.

Investment property is initially measured at cost on its acquisition date. The cost of investment property is the purchase price and other costs attributable to bring the asset to a condition necessary for it to be capable of operating in the manner intended by the Economic Entity.

Where an investment property is acquired through a non-exchange transaction, its cost is measured at its fair value as at the date of acquisition and any other costs attributable to bring the asset to a condition necessary for it to be capable of operating in the manner intended by the Economic Entity. The cost of self-constructed investment property is the cost at date of completion. Transfers are made to or from investment property only when there is a change in use.

Where investment property is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, its deemed cost is the carrying amount of the asset(s) given up.

1.10.2 Subsequent Measurement – Cost Model

Subsequent to initial recognition, items of investment property are measured at cost less accumulated depreciation and any accumulated impairment losses. Land is not depreciated as it is deemed to have an indefinite useful life.

1.10.3 Depreciation – Cost Model

Depreciation of an asset begins when it is available for use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by the Economic Entity. Depreciation of an asset ceases at the date that the asset is derecognised.

Depreciation is calculated on the depreciable amount, using the straight-line method over the estimated useful lives of the assets. The depreciation charge for each period is recognised in Consolidated Statement of Financial Performance, unless it is included in the carrying amount of another asset.

The depreciation method is reviewed at each reporting date, with the effect of any changes in estimate accounted for on a prospective basis.

At each reporting date the Economic Entity assesses whether there is any indication that expectations about the residual value and the useful life of an asset may have changed since the preceding reporting date. If any such indication exists, the expected residual value and useful life are revised and the effect of any changes in estimate accounted for on a prospective basis.

The annual depreciation rates are based on the following estimated useful lives:

	YEARS
Buildings	20 - 30
Land	Indefinite

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2023

1.10 INVESTMENT PROPERTY (CONTINUED)

1.10.4 Impairment

Investment property is reviewed at each reporting date for any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. The impairment recognised in the Consolidated Statement of Financial Performance is the excess of the carrying value over the recoverable amount.

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of an impairment is recognised in the Consolidated Statement of Financial Performance.

1.10.5 Derecognition

An investment property is derecognised on disposal or when the investment property is permanently withdrawn from use and no future economic benefits or service potential are expected from its disposal.

Gains or losses arising from the retirement or disposal of investment property is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in the Consolidated Statement of Financial Performance in the period of the retirement or disposal.

Compensation from third parties for items of investment property that were impaired, lost or given up is recognised in the Consolidated Statement of Financial Performance when the compensation becomes receivable.

1.11 PROPERTY, PLANT AND EQUIPMENT

1.11.1 Initial Recognition

Property, plant and equipment are tangible non-current assets that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one year.

The cost of an item of property, plant and equipment is recognised as an asset if it is probable that future economic benefits or service potential associated with the item will flow to the Economic Entity, and the cost or fair value of the item can be measured reliably.

Items of property, plant and equipment are initially recognised at cost on its acquisition date. The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the Economic Entity. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

Where an asset is acquired through a non-exchange transaction, the cost is deemed to be equal to the fair value of that asset as at date of acquisition and any other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the Economic Entity.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, its deemed cost is the carrying amount of the asset(s) given up.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Spare parts and stand by equipment which are expected to be used for more than one period are included in property, plant and equipment.

1.11.2 Subsequent Measurement - Cost Model

Subsequent to initial recognition, items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Land is not depreciated as it is deemed to have an indefinite useful life.

Where the Economic Entity replaces parts of an asset, it derecognises the part of the asset being replaced and capitalises the new component. Subsequent expenditure incurred on an asset is capitalised when it increases the capacity or future economic benefits or service potential associated with the asset.

1.11.3 Depreciation

Depreciation of an asset begins when it is available for use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by the Economic Entity. Depreciation of an asset ceases at the date that the asset is derecognised.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2023

1.11 PROPERTY, PLANT AND EQUIPMENT (CONTINUED)

Depreciation is calculated on the depreciable amount, using the straight-line method over the estimated useful lives of the assets. The depreciation charge for each period is recognised in Consolidated Statement of Financial Performance, unless it is included in the carrying amount of another asset.

At each reporting date the Economic Entity assesses whether there is any indication that expectations about the residual value and the useful life of an asset may have changed since the preceding reporting date. If any such indication exists, the expected residual value and useful life are revised and the effect of any changes in estimate are accounted for on a prospective basis.

The annual depreciation rates are based on the following estimated useful lives:

	YEARS
Infrastructure	
Sewerage Network	7 - 118
Water Network	8 - 101
Land and Buildings	
Land	Indefinite
Buildings	20 - 30
Other Assets	
Special Vehicles	10 - 16
Motor vehicles	5 – 17
Office Equipment	7 – 15
Furniture and Fittings	7 – 16
Tool and Equipment	5 – 15
Computer Equipment	3 – 17
Fire Engines	5 – 12

1.11.4 Impairment

Property, plant and equipment is reviewed at each reporting date for any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. The impairment recognised in the Consolidated Statement of Financial Performance is the excess of the carrying value over the recoverable amount.

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of an impairment is recognised in the Consolidated Statement of Financial Performance.

1.11.5 Derecognition

Items of property, plant and equipment are derecognised when the asset is disposed or when there are no further economic benefits or service potential expected from the use of the asset.

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value and is recognised in the Consolidated Statement of Financial Performance.

Compensation from third parties for items of property, plant and equipment that were impaired, lost or given up is recognised in the Consolidated Statement of Financial Performance when the compensation becomes receivable.

1.12 INTANGIBLE ASSETS

1.12.1 Initial Recognition

An intangible asset is an identifiable non-monetary asset without physical substance.

The Economic Entity recognises an intangible asset only when it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the Economic Entity and the cost or fair value of the asset can be measured reliably.

Intangible assets are initially recognised at cost on its acquisition date. The cost of an intangible asset is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the Economic Entity. Trade discounts and rebates are deducted in arriving at the cost.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2023

1.12 INTANGIBLE ASSETS (CONTINUED)

Where an intangible asset is acquired through a non-exchange transaction, its initial cost is measured at its fair value at the date of acquisition and any other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the Economic Entity.

Where an intangible asset is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value is not determinable, its deemed cost is the carrying amount of the asset(s) given up.

Internally generated intangible assets are subject to a strict recognition criteria before they are capitalised. Research expenditure is never capitalised, while development expenditure is only capitalised to the extent that:

- (a) the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- (b) its intention to complete the intangible asset and use or sell it;
- (c) its ability to use or sell the intangible asset;
- (d) how the intangible asset will generate probable future economic benefits or service potential;
- (e) the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- (f) its ability to measure reliably the expenditure attributable to the intangible asset during its development.

1.12.2 Subsequent Measurement - Cost Model

Intangible assets are subsequently carried at cost less accumulated amortisation and any accumulated impairment losses.

1.12.3 Amortisation

The cost of an intangible asset is amortised over the useful life where that useful life is finite. Where the useful life is indefinite, the asset is not amortised but is still subject to an annual impairment test.

Amortisation of an intangible with a finite life asset begins when it is available for use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by the Economic Entity. Amortisation ceases at the date that the asset is derecognised.

Amortisation is calculated on the depreciable amount, using the straight-line method over the estimated useful lives of the intangible assets. The amortisation charge for each period is recognised in the Consolidated Statement of Financial Performance, unless it is included in the carrying amount of another asset.

The residual value of an intangible asset with a finite useful life is considered to be zero.

The amortisation period and amortisation method are reviewed at each reporting date, with the effect of any changes in estimate accounted for on a prospective basis.

The annual amortisation rates are based on the following estimated useful lives:

	Years
Computer Software and Website	3 - 10

1.12.4 Impairment

Intangible assets are reviewed at each reporting date for any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. The impairment recognised in the Consolidated Statement of Financial Performance is the excess of the carrying value over the recoverable amount.

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of an impairment is recognised in the Consolidated Statement of Financial Performance.

1.12.5 Derecognition

Intangible assets are derecognised when the asset is disposed or when there are no further economic benefits or service potential expected from the use of the asset.

The gain or loss arising on the disposal or retirement of an intangible asset is determined as the difference between the sales proceeds and the carrying value and is recognised in the Consolidated Statement of Financial Performance.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2023

1.13 IMPAIRMENT OF NON-MONETARY ASSETS

An impairment is a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation.

Cash-generating assets are assets held with the primary objective of generating a commercial return. Non-cash-generating assets are assets other than cash-generating assets.

The Economic Entity assesses at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, the Economic Entity estimates the recoverable amount of the asset.

1.13.1 Recoverable amount of Cash-generating assets

The recoverable amount of an asset or a cash-generating unit is the higher of its fair value less costs to sell and its value in use.

The best evidence of fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

Value in use of a cash-generating asset is the present value of the estimated future cash flows expected to be derived from the continuing use of an asset and from its disposal at the end of its useful life.

1.13.2 Recoverable amount of Non-cash-generating assets

The recoverable service amount is the higher of a non-cash generating asset's fair value less costs to sell and its value in use.

The value in use for a non-cash generating asset is the present value of the asset's remaining service potential. Fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

1.13.3 Impairment loss

If the recoverable amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in the Consolidated Statement of Financial Performance.

An impairment loss of assets carried at a revalued amount in accordance with another Standard of GRAP is treated as a revaluation decrease in accordance with that Standard of GRAP.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the asset is adjusted in future periods to allocate the asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

1.13.4 Reversal of an impairment loss

The Economic Entity assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets may no longer exist or may have decreased. If any such indication exists, the recoverable amounts of those assets are estimated.

The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation is recognised immediately in the Consolidated Statement of Financial Performance.

A reversal of an impairment loss of assets carried at a revalued amount in accordance with another Standard of GRAP is treated as a revaluation increase in accordance with that Standard of GRAP.

After the reversal of an impairment loss, the depreciation (amortisation) charge for the asset is adjusted in future periods to allocate the asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2023

1.14 INVENTORIES

1.14.1 Initial Recognition

Inventories are assets:

- (a) in the form of materials or supplies to be consumed in the production process;
- (b) in the form of materials or supplies to be consumed or distributed in the rendering of services;
- (c) held for sale or distribution in the ordinary course of operations; or
- (d) in the process of production for sale or distribution.

Inventories are recognised as an asset if it is probable that future economic benefits or service potential associated with the item will flow to the Economic Entity, and the cost of the inventories can be measured reliably.

Inventories are initially recognised at cost. Cost generally refers to the purchase price, plus non-recoverable taxes, transport costs and any other costs in bringing the inventories to their current location and condition. Trade discounts, rebates and other similar items are deducted in determining the costs of purchase.

Where inventory is manufactured, constructed or produced, the cost includes the cost of labour, materials and overheads used during the manufacturing process.

Where inventories are acquired through a non-exchange transaction, the cost is measured at the fair value as at the date of acquisition plus any other costs in bringing the inventories to their current location and condition.

1.14.2 Subsequent Measurement

When inventories are sold, exchanged or distributed the carrying amount of those inventories are recognised as an expense in the period in which the related revenue is recognised. If there is no related revenue, the expense is recognised when the goods are distributed, or related service is rendered.

Inventories are valued at the lower of cost and net realisable value unless they are to be distributed at no or nominal charge, in which case they are measured at the lower of cost and current replacement cost.

Net realisable value is the estimated selling price in the ordinary course of operations less the estimated costs of completion and the estimated costs necessary to make the sale, exchange or distribution. Current replacement cost is the cost the Economic Entity would incur to acquire the asset on the reporting date.

The amount of any write-down of inventories to net realisable value or current replacement cost and all losses of inventories is recognised as an expense in the period the write-down or loss occurs.

The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value or current replacement cost, is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

The basis of allocating cost to inventory items is the weighted average method.

At reporting date, the water volume is determined by way of dip readings and the calculated volume in the distribution network. Water inventory is then measured by multiplying the cost per kilo litre of purified water by the amount of water in storage.

1.15 EMPLOYEE BENEFITS

Defined-contribution plans are post-employment benefit plans under which the Economic Entity pays fixed contributions into a separate entity (a fund), and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods. The contributions to fund obligations for the payment of retirement benefits are recognised in the Consolidated Statement of Financial Performance in the year during which they become payable.

Defined-benefit plans are post-employment benefit plans other than defined-contribution plans.

1.15.1 Post-Retirement Benefits

The Economic Entity provides retirement benefits for its employees and councillors. Retirement benefits consist of defined-contribution plans and defined-benefit plans.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2023

1.15 EMPLOYEE BENEFITS (CONTINUED)

1.15.1.1 Multi-employer defined benefit plans

The Economic Entity contributes to various National- and Provincial-administered defined benefit plans on behalf of its qualifying employees. These funds are multi-employer funds. The contributions to fund obligations for the payment of retirement benefits are recognised in the Consolidated Statement of Financial Performance in the year they become payable. These defined benefit funds are actuarially valued on the projected unit credit method basis. Deficits are recovered through lump sum payments or increased future contributions on a proportional basis from all participating municipalities.

1.15.1.2 Post-Retirement Medical Obligations

The Economic Entity provides post-retirement medical benefits by subsidizing the medical aid contributions of certain retired staff according to the rules of the medical aid funds. Council pays 70% as contribution and the remaining 30% is paid by the members. The entitlement to these benefits is usually conditional on the employee remaining in service up to retirement age and the completion of a minimum service period. The present value of the defined benefit liability is actuarially determined. The plan is unfunded.

Contributions are recognised in the Consolidated Statement of Financial Performance when employees have rendered the service entitling them to the contribution. The liability is calculated by means of the projected unit credit actuarial valuation method. The liability in respect of current pensioners is regarded as fully accrued, and is therefore not split between a past (or accrued) and future in-service element. The liability is recognised at the present value of the defined benefit obligation at the reporting date, minus the fair value at the reporting date of plan assets (if any) out of which the obligations are to be settled directly, plus any liability that may arise as a result of a minimum funding requirements. Payments made by the Economic Entity are set-off against the liability, including notional interest, resulting from the valuation by the actuaries and are recognised in the Consolidated Statement of Financial Performance as employee benefits upon valuation.

Actuarial gains and losses arising from the experience adjustments and changes in actuarial assumptions, are recognised in the Consolidated Statement of Financial Performance in the period that it occurs. These obligations are valued annually by independent qualified actuaries.

1.15.2 Long-term Benefits

1.15.2.1 Long Service Awards

Long service awards are provided to employees who achieve certain pre-determined milestones of service within the Economic Entity. The Economic Entity's obligation under these plans is valued by independent qualified actuaries annually and the corresponding liability is raised. Payments are set-off against the liability, including notional interest, resulting from the valuation by the actuaries and are recognised in the Consolidated Statement of Financial Performance as employee benefits upon valuation.

Actuarial gains and losses arising from the experience adjustments and changes in actuarial assumptions, is recognised in the Consolidated Statement of Financial Performance in the period that it occurs. These obligations are valued annually by independent qualified actuaries.

1.15.2.2 Ex gratia Gratuities

Ex gratia gratuities are provided to employees that were not previously members of a pension fund. The Economic Entity's obligation under these plans is valued by independent qualified actuaries and the corresponding liability is raised. Payments made by the Economic Entity are set-off against the liability, including notional interest, resulting from the valuation by the actuaries and are recognised in the Consolidated Statement of Financial Performance as employee benefits upon valuation.

Actuarial gains and losses arising from the experience adjustments and changes in actuarial assumptions, is recognised in the Consolidated Statement of Financial Performance in the period that it occurs. These obligations are valued annually by independent qualified actuaries.

1.15.3 Short-term Benefits

Short-term employee benefits are employee benefits (other than termination benefits) that are due to be settled within twelve months after the end of the period in which the employees render the related service.

Short-term employee benefits include items such as:

- Wages, salaries and social security contributions;
- Short-term compensated absences (such as paid annual leave and paid sick leave) where the compensation for the absences is due to be settled within twelve months after the end of the reporting period in which the employees render the related employee service; and
- non-monetary benefits (for example, medical care, and free or subsidised goods or services such as housing, cars and cell phones) for current employees.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2023

1.15 EMPLOYEE BENEFITS (CONTINUED)

When an employee has rendered service to the Economic Entity during a reporting period, the Economic Entity recognise the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service:

- as a liability (accrued expense), after deducting any amount already paid. If the amount already paid exceeds the undiscounted amount of the benefits, the Economic Entity recognise that excess as an asset (prepaid expense) to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund; and
- as an expense, unless another Standard requires or permits the inclusion of the benefits in the cost of an asset.

1.15.3.1 Provision for Staff Leave

Liabilities for annual leave are recognised as they accrue to employees. The liability is based on the total amount of leave days due to employees at reporting date and also on the total remuneration package of the employee.

Accumulating leave is carried forward and can be used in future periods if the current period's entitlement is not used in full. All unused leave will be paid out to the specific employee at the end of that employee's employment term. Accumulated leave is vesting.

1.15.3.2 Staff Bonuses Accrued

The liability for staff bonuses is based on the accrued bonus for each employee at reporting date.

1.15.3.3 Provision for Performance Bonuses

A provision, in respect of the liability relating to the anticipated costs of performance bonuses payable to Section 57 employees, is recognised as it accrue to Section 57 employees. Provisions are based on the employment contract stipulations as well as previous performance bonus payment trends.

1.16 PROVISIONS

A provision is a liability of uncertain timing or amount. Provisions are recognised when the Economic Entity has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resource embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate of the provision can be made.

Provisions are reviewed at reporting date and adjusted to reflect the current best estimate of future outflows of resources. Where the effect is material, non-current provisions are discounted to their present value using a discount rate that reflects the market's current assessment of the time value of money, adjusted for risks specific to the liability.

Future events that may affect the amount required to settle an obligation are reflected in the amount of a provision where there is sufficient objective evidence that they will occur. Gains from the expected disposal of assets are not taken into account in measuring a provision. Provisions are not recognised for future operating losses. The present obligation under an onerous contract is recognised and measured as a provision.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement is recognised when it is virtually certain that reimbursement will be received if the Economic Entity settles the obligation. The reimbursement is treated as a separate asset. The amount recognised for the reimbursement will not exceed the amount of the provision. In the Consolidated Statement of Financial Performance, the expense relating to a provision may be presented net of the amount recognised for a reimbursement.

A provision for restructuring costs is recognised only when the following criteria over and above the recognition criteria of a provision have been met:

- (a) The Economic Entity has a detailed formal plan for the restructuring identifying at least:
 - the business or part of a business concerned;
 - the principal locations affected;
 - the location, function and approximate number of employees who will be compensated for terminating their services;
 - the expenditures that will be undertaken; and
 - when the plan will be implemented.
- (b) The Economic Entity has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement that plan or announcing its main features to those affected by it.

If it is no longer probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation, the provision is derecognised.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2023

1.17 LEASES

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

1.17.1 Economic Entity as Lessee

1.17.1.1 Finance Leases

At the commencement of the lease term, the Economic Entity recognises assets acquired under finance leases as assets and the associated lease obligations as liabilities in the Consolidated Statement of Financial Position.

At the inception of the lease, the assets and liabilities are recognised at the lower of the fair value of the leased property and the present value of the minimum lease payments. The discount rate to be used in calculating the present value of the minimum lease payment is the interest rate implicit in the lease. If the rate implicit to the lease is not available the Economic Entity's incremental borrowing rate is used. Any initial direct costs of the Economic Entity are added to the amount recognised as an asset.

Subsequent to initial recognition, the minimum lease payments are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge are allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability. Contingent rents, if any, are charged as expenses to the Consolidated Statement of Financial Performance in the periods in which they are incurred. The leased assets are accounted for in accordance with the stated accounting policies applicable to the assets.

1.17.1.2 Operating leases

Lease payment under an operating lease is recognised as an expense in the Consolidated Statement of Financial Performance on a straight-line basis over lease term, unless another systematic basis is more representative of the time pattern of the user's benefit. The difference between the straight-lined expenses and actual payments made will give rise to a liability.

1.17.2 Economic Entity as Lessor

1.17.2.1 Operating Leases

Operating lease revenue is recognised in the Consolidated Statement of Financial Performance on a straight-line basis over the term of the relevant lease, unless another systematic basis is more representative of the time pattern in which benefit derived from the leased asset is diminished. The difference between the straight-lined revenue and actual payments received will give rise to an asset.

1.18 FINANCIAL INSTRUMENTS

1.18.1 Initial Recognition

Financial instruments (financial assets and financial liabilities) are recognised on the Economic Entity's Consolidated Statement of Financial Position when it becomes party to the contractual provisions of the instrument.

Financial instruments are initially recognised at fair value plus, in the case of a financial asset or financial liability not at fair value, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. If finance charges in respect of financial assets and financial liabilities are significantly different from similar charges usually obtained in an open market transaction, adjusted for the specific risks of the Economic Entity, such differences are immediately recognised in the period it occurs, and the unamortised portion adjusted over the period of the loan transactions.

1.18.2 Subsequent Measurement

Financial instruments are categorised as follow:

- (a) Financial instruments at amortised cost are non-derivative financial instruments with fixed or determinable payments that are not quoted in an active market. They are included in current assets or current liabilities, except for maturities greater than 12 months, which are classified as non-current. After initial recognition, both financial assets and financial liabilities are measured at amortised cost, using the effective interest rate method. Financial assets are also subject to an impairment review.
- (b) Financial instruments at cost are investments in residual interests that do not have a quoted market price in an active market, and whose fair value cannot be reliably measured. Both financial assets and financial liabilities are subsequently measured at cost. Financial assets are subject to an impairment review.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2023

1.18 FINANCIAL INSTRUMENTS (CONTINUED)

- (c) Financial instruments at fair value comprise of financial assets or financial liabilities that are:
 - (i) derivatives;
 - (ii) combined instruments that are designated at fair value;
 - (iii) instruments held for trading;
 - (iv) non-derivative financial assets or financial liabilities with fixed or determinable payments that are designated at fair value at initial recognition; or
 - (v) financial instruments that do not meet the definition of financial instruments at amortised cost or financial instruments at cost.

Both, financial assets and financial liabilities are subsequently measured at fair value with unrealised gains or losses recognised directly in the Consolidated Statement of Financial Performance.

1.18.3 Impairment and uncollectibility of financial assets

Financial assets, other than those at fair value, are assessed for indicators of impairment at each reporting date. Financial assets are impaired where there is objective evidence of impairment of financial assets.

1.18.3.1 Financial assets measured at amortised cost

If there is objective evidence that an impairment loss on financial assets measured at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition). Cash flows relating to short-term financial assets are not discounted where the effect of discounting is immaterial. The carrying amount of the asset is reduced through the use of an allowance account. The amount of the loss is recognised in the Consolidated Statement of Financial Performance.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment is reversed by adjusting an allowance account. The amount of the reversal is recognised in Consolidated Statement of Financial Performance.

1.18.3.2 Financial assets measured at cost

If there is objective evidence that an impairment loss has been incurred on an investment in a residual interest that is not measured at fair value because its fair value cannot be measured reliably, the amount of the impairment loss is measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses is not be reversed.

1.18.4 Derecognition of financial instruments

1.18.4.1 Financial assets

The Economic Entity derecognises financial assets only when the contractual rights to the cash flows from the asset expire or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. Financial assets (receivables) are also derecognised when Council approves the write-off of financial assets due to non-recoverability.

If the Economic Entity neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Economic Entity recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Economic Entity retains substantially all the risks and rewards of ownership of a transferred financial asset, the Economic Entity continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

1.18.4.2 Financial liabilities

The Economic Entity derecognises financial liabilities when the Economic Entity's obligations are discharged, cancelled or they expire.

The Economic Entity recognises the difference between the carrying amount of the financial liability (or part of a financial liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, in the Consolidated Statement of Financial Performance.

1.18.5 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the Consolidated Statement of Financial Position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2023

1.19 STATUTORY RECEIVABLES

Statutory receivables arise from legislation, supporting regulations, or similar means and require settlement by another entity in cash or another financial asset. Statutory receivables can arise from both exchange and non-exchange transactions.

1.19.1 Initial Recognition

Statutory receivables are recognised when the related revenue (exchange or non-exchange revenue) is recognised or when the receivable meets the definition of an asset. The Economic Entity initially measure statutory receivables at their transaction amount.

1.19.2 Subsequent Measurement

The Economic Entity measures statutory receivables after initial recognition using the cost method. Under the cost method, the initial measurement of the receivable is subsequently changed to reflect any interest or other charges that may have accrued on the receivable, less any impairment losses and amounts derecognised.

1.19.3 Impairment and uncollectibility of statutory receivables

The Economic Entity assesses at each reporting date whether there is any indication that a statutory receivable may be impaired.

If there is an indication that a statutory receivable may be impaired, the Economic Entity measures the impairment loss as the difference between the estimated future cash flows and the carrying amount. Where the carrying amount is higher than the estimated future cash flows, the carrying amount of the statutory receivable is reduced, through the use of an allowance account. The amount of the loss is recognised in the Consolidated Statement of Financial Performance. In estimating the future cash flows, the Economic Entity considers both the amount and timing of the cash flows that it will receive in future. Consequently, where the effect of the time value of money is material, the Economic Entity discounts the estimated future cash flows using a rate that reflects the current risk free rate and any risks specific to the statutory receivable for which the future cash flow estimates have not been adjusted.

An impairment loss recognised in prior periods for a statutory receivable is revised if there has been a change in the estimates used since the last impairment loss was recognised, or to reflect the effect of discounting the estimated cash flows. Any previously recognised impairment loss is adjusted by adjusting the allowance account. The amount of any adjustment is recognised in the Consolidated Statement of Financial Performance.

1.19.4 Derecognition

The Economic Entity derecognises a statutory receivable when the rights to the cash flows from the receivable are settled, expire or are waived or the Economic Entity transfers the receivable and substantially all the risks and rewards of ownership of the receivable to another entity.

When the Economic Entity, despite having retained some significant risks and rewards of ownership of the receivable, has transferred control of receivable to another entity, the Economic Entity derecognises the receivable and recognises separately any rights and obligations created or retained in the transfer.

1.20 CASH AND CASH EQUIVALENTS

Cash includes cash on hand, cash held with banks, and call deposits. Cash equivalents are short-term highly liquid investments with registered banking institutions with maturities of three months or less from inception, readily convertible to cash without significant change in value.

Bank overdrafts are recorded based on the facility utilised. Finance charges on bank overdraft are expensed as incurred in the Consolidated Statement of Financial Performance.

For the purposes of the cash flow statement, cash and cash equivalents consist of cash and cash equivalents as defined above, net of any bank overdrafts.

1.21 RECEIVABLES

Receivables are recognised initially at fair value, which approximates amortised cost less provision for impairment. Amounts receivable within 12 months from the date of reporting are classified as current.

A provision for impairment of receivables is established when there is objective evidence that the Economic Entity will not be able to collect all amounts due according to the original terms of receivables. An estimate is made for impairment of receivables, based on past default experience of all outstanding amounts at reporting date.

Bad debts are written off in the year during which they are identified as irrecoverable, subject to the approval by the appropriate delegated authority. When a receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the Consolidated Statement of Financial Performance.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2023

1.22 SOUTH AFRICAN REVENUE SERVICES (VALUE ADDED TAX)

Revenue, expenses and assets are recognised net of the amounts of value added tax. The net amount of Value Added Tax recoverable from, or payable to, the taxation authority is included in the Consolidated Statement of Financial Position. The Economic Entity accounts for value-added tax (VAT) on the payment basis.

1.23 PAYABLES AND ANNUITY LOANS

Payables and annuity loans are initially recognised at fair value and subsequently measured at amortised cost using an effective interest rate, which is the initial carrying amount, less repayments, plus interest.

1.24 CONSUMER DEPOSITS

Consumer deposits are disclosed as a current liability. Consumer deposits are levied in line with council's policy to consumers when services are initially connected. When services are disconnected or terminated, the outstanding deposit is utilised against any arrear accounts the consumer might be liable for on that date. Any excess deposit after all debt is settled is refunded to the specific consumer.

1.25 UNSPENT CONDITIONAL GOVERNMENT GRANTS AND UNSPENT PUBLIC CONTRIBUTIONS

Grants, transfers and donations received or receivable are recognised as assets when the resources that have been transferred to the Economic Entity meet the definition and criteria for recognition as assets.

Conditional grants, transfers and donations are recognised as revenue to the extent that the Economic Entity has complied with the conditions embodied in the agreement. Where the agreement contains a stipulation to return the asset, other future economic benefits or service potential, in the event of non-compliance to these stipulations and would be enforced by the transferor, a liability is recognised to the extent that the conditions have not been met. Where such requirements are not enforceable, or where past experience has indicated that the transferor has never enforced the requirement to return the transferred asset, other future economic benefits or service potential when breaches have occurred, the stipulation will be considered a restriction and is recognised as revenue.

The liability recognised to the extent that the conditions associated with the grant, transfer or donation have not been met, always has to be cashbacked. The cash which backs up the liability is invested as an individual investment or part of the general investments of the Economic Entity until it is utilised.

Interest earned on investments of grants, transfers and donations are treated in accordance with conditions as stipulated in the agreement. If it is payable to the grantor it is recorded as part of the creditor and if it is the Economic Entity's interest it is recognised as interest earned in the Consolidated Statement of Financial Performance.

1.26 UNPAID CONDITIONAL GRANTS AND RECEIPTS

Unpaid conditional grants are assets in terms of the Framework that are separately reflected on the Consolidated Statement of Financial Position. The asset is recognised when the Economic Entity has an enforceable right to receive the grant or if it is virtually certain that it will be received based on that grant conditions have been met. They represent unpaid government grants and subsidies.

1.27 NON-CURRENT INVESTMENTS

Investments which include investments in municipal entities and fixed deposits invested in registered commercial banks, are stated at amortised cost.

Where investments have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the Consolidated Statement of Financial Performance in the period that the impairment is identified.

On disposal of an investment, the difference between the net disposal proceeds and the carrying amount is recognised in the Consolidated Statement of Financial Performance.

The carrying amounts of such investments are reduced to recognise any decline, other than a temporary decline, in the value of individual investments.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2023

1.28 REVENUE

At the time of initial recognition, the full amount of revenue is recognised where the Economic Entity has an enforceable legal obligation to collect, unless the Economic Entity has no intention of collecting this revenue. Where the Economic Entity has no intention of collecting the revenue, rebates and discounts are offset against the related revenue. If the Economic Entity does not successfully enforce its obligation to collect the revenue this would be considered a subsequent event.

1.28.1 Revenue from Non-Exchange Transactions

Revenue from non-exchange transactions refers to transactions where the Economic Entity received revenue from another entity without directly giving approximately equal value in exchange.

Revenue from non-exchange transactions is generally recognised to the extent that the related receipt or receivable qualifies for recognition as an asset and there is no liability to repay the amount.

1.28.1.1 Transfer Revenue

Grants, transfers and donations received or receivable are recognised when the resources that have been transferred, meet the criteria for recognition as an asset. A corresponding liability is recognised to the extent that the grant, transfer or donation is conditional. The liability is transferred to revenue as and when the conditions attached to the grant are met.

Grants, transfers and donations without any conditions attached are recognised as revenue when the asset is recognised.

1.28.1.2 Insurance Receipts

Revenue from third parties i.e. insurance payments for assets impaired, are recognised when it can be measured reliably and is not being offset against the related expenses of repairs or renewals of the impaired assets.

1.28.1.3 Unclaimed deposits

All unclaimed deposits are initially recognised as a liability until 36 months expires, when all unclaimed deposits into the Economic Entity's bank account will be treated as revenue. This policy is in line with prescribed debt principle as enforced by law.

1.28.1.4 Revenue from Recovery of Unauthorised, Irregular, Fruitless and Wasteful Expenditure

Income from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the MFMA (Act 56 of 2003), and is recognised upon the recovery thereof from the responsible party.

1.28.1.5 Services in-kind

Services in-kind include services provided by individuals to the Economic Entity at no charge or where the Economic Entity has the right to use assets at no charge.

The Economic Entity's recognises services in-kind that are significant to its operations as assets and recognises the related revenue when it is probable that the future economic benefits or service potential will flow to the Economic Entity and the fair value of the assets can be measured reliably.

When the criteria for recognition is satisfied, services in-kind are recognised at their fair value as at the date of acquisition.

If the services in-kind are not significant to the Economic Entity's operations or does not satisfy the criteria for recognition, the Economic Entity only disclose the nature and type of services in-kind received during the reporting period.

1.28.1.6 Contributed Assets

Contributed assets are recognised at fair value when such items of property, plant and equipment qualifies for recognition and become available for use by the Economic Entity.

1.28.2 Revenue from Exchange Transactions

Revenue from exchange transactions refers to revenue that accrued to the Economic Entity directly in return for services rendered or goods sold, the value of which approximates the consideration received or receivable.

1.28.2.1 Service Charges

Service Charges are levied in terms of approved tariffs.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2023

1.28 REVENUE (CONTINUED)

Service charges relating to water are based on consumption and a basic charge as per the approved tariffs. Meters are read on a monthly basis and are recognised as revenue when invoiced. Where the Economic Entity was unable to take the actual month's reading of certain consumers, a provisional estimate of consumption for that month will be created, based on consumption history. The provisional estimates of consumption are recognised as revenue when invoiced, except at reporting date when estimates of consumption up to the reporting date are recorded as revenue without being invoiced. Adjustments to provisional estimates of consumption are made in the invoicing period in which meters have been read. These adjustments are recognised as revenue in the invoicing period. In respect of estimates of consumption between the last reading date and the reporting date, an accrual is made based on the average monthly consumption of consumers.

Service charges relating to sewerage and sanitation are recognised on a monthly basis in arrears by applying the approved tariff to each property. These service charges are based on the type of service and the number of sewer connections on all developed property, using the tariffs approved and are levied on a monthly basis.

1.28.2.2 Investment income

Interest earned on investments is recognised in the Consolidated Statement of Financial Performance on the time proportionate basis that takes into account the effective yield on the investment.

1.28.2.3 Rental income

Revenue from the rental of facilities and equipment is recognised on a straight-line basis over the term of the lease agreement.

1.28.2.4 Income from Agency Services

Revenue arising out of situations where the Economic Entity acts as an agent on behalf of another entity (the principal) is limited to the amount of any fee or commission payable to the Economic Entity as compensation for executing the agreed services.

Income from agency services is recognised on a monthly basis once the income collected on behalf of agents has been quantified. The income recognised is in terms of the agency agreement.

1.28.2.5 Other Tariffs

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant tariff. This includes the issuing of licences and permits.

1.28.2.6 Sale of goods

Revenue from the sale of goods is recognised when all the following conditions are satisfied:

- (a) The Economic Entity has transferred to the purchaser the significant risks and rewards of ownership of the goods.
- (b) The Economic Entity retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold.
- (c) The amount of revenue can be measured reliably.
- (d) It is probable that the economic benefits or service potential associated with the transaction will flow to the Economic Entity.
- (e) The costs incurred or to be incurred in respect of the transaction can be measured reliably.

1.28.2.7 Deferred payment

In most cases, the consideration is in the form of cash or cash equivalents and the amount of revenue is the amount of cash or cash equivalents received or receivable. However, when the inflow of cash or cash equivalents is deferred, the fair value of the consideration may be less than the nominal amount of cash received or receivable. When the arrangement effectively constitutes a financing transaction, the fair value of the consideration is determined by discounting all future receipts using an imputed rate of interest.

The difference between the fair value and the nominal amount of the consideration is recognised as interest revenue.

1.29 BORROWING COSTS

Borrowing costs that are incurred by the Economic Entity are expensed in the Consolidated Statement of Financial Performance in the period during which they are incurred, regardless of how the borrowings are applied.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2023

1.30 TAXATION

1.30.1 Current tax assets and liabilities

Current tax for current and prior periods is, to the extent unpaid, recognised as a liability. If the amount already paid in respect of current and prior periods exceeds the amount due for those periods, the excess is recognised as an asset. Current tax liabilities/(assets) for the current and prior periods are measured at the amount expected to be paid to/(recovered from) the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the reporting date.

1.30.2 Deferred tax assets and liabilities

Deferred tax liability is recognised for all taxable temporary differences, except to the extent that the deferred tax liability arises from the initial recognition of an asset or liability in a transaction which at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss).

A deferred tax asset is recognised for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised. A deferred tax asset is not recognised when it arises from the initial recognition of an asset or liability in a transaction at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss).

A deferred tax asset is recognised for the carry forward of unused tax losses to the extent that it is probable that future taxable profit will be available against which the unused tax losses can be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the reporting date.

1.30.3 Tax expenses

Current and deferred taxes are recognised as income or an expense and included in surplus/deficit for the period. Current tax and deferred taxes are charged or credited directly to equity if the tax relates to items that are credited or charged, in the same or a different period, directly to equity.

1.31 UNAUTHORISED EXPENDITURE

Unauthorised expenditure is expenditure that has not been budgeted, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, Economic Entity or organ of state and expenditure in a form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No. 56 of 2003). Unauthorised expenditure is accounted for as an expense (measured at actual cost incurred) in the Consolidated Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Consolidated Statement of Financial Performance.

1.32 IRREGULAR EXPENDITURE

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No. 56 of 2003), the Municipal Systems Act (Act No. 32 of 2000), the Public Office Bearers Act, and (Act. No. 20 of 1998) or is in contravention of the Economic Entity's Supply Chain Management Policy. Irregular expenditure is accounted for as expenditure (measured at actual cost incurred) in the Consolidated Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Consolidated Statement of Financial Performance.

1.33 FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and wasteful expenditure is expenditure that was made in vain and could have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure (measured at actual cost incurred) in the Consolidated Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Consolidated Statement of Financial Performance.

1.34 CONTINGENT LIABILITIES AND CONTINGENT ASSETS

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or nonoccurrence of one or more uncertain future events not wholly within the control of the Economic Entity. A contingent liability could also be a present obligation that arises from past events, but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to the obligation or the amount of the obligation cannot be measures with sufficient reliability.

Contingent assets represent possible assets that arise from past events and whose existence will be confirmed only by an occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Economic Entity.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2023

1.34 CONTINGENT LIABILITIES AND CONTINGENT ASSETS (CONTINUED)

The Economic Entity does not recognise a contingent liability or contingent asset. A contingent liability is disclosed unless the probability of an outflow of resources embodying economic benefits or service potential is remote. A contingent asset is disclosed where the inflow of economic benefits or service potential is probable.

1.35 CAPITAL COMMITMENTS

Capital commitments disclosed in the financial statements represents the contractual balance committed to capital projects on reporting date that will be incurred in the period subsequent to the specific reporting date.

1.36 EVENTS AFTER REPORTING DATE

Events after the reporting date are those events, both favourable and unfavourable, that occur between the reporting date and the date when the financial statements are authorised for issue. Two types of events can be identified:

- (a) those that provide evidence of conditions that existed at the reporting date (adjusting events after the reporting date); and
- (b) those that are indicative of conditions that arose after the reporting date (non-adjusting events after the reporting date).

If non-adjusting events after the reporting date are material, the Economic Entity discloses the nature and an estimate of the financial effect.

1.37 RELATED PARTIES

A related party is a person or an entity with the ability to control or jointly control the other party, or exercise significant influence over the other party, or vice versa, or an entity that is subject to common control, or joint control.

Related party transaction is a transfer of resources, services or obligations between the Economic Entity and a related party, regardless of whether a price is charged.

Management is considered a related party and comprises those persons responsible for planning, directing and controlling the activities of the Economic Entity, including those charged with the governance of the Economic Entity in accordance with legislation, in instances where they are required to perform such functions.

A close family member of management is also considered to be related party. A person is considered to be a close member of the family of another person if they are married or live together in a relationship similar to a marriage or are separated by no more than two degrees of natural or legal consanguinity or affinity.

The Economic Entity is exempt from the disclosure requirements in relation to related party transactions if that transactions occurs within the normal supplier and/or client/recipient relationship on terms and conditions no more or less favourable than those which it is reasonable to expect the Economic Entity to have adopted if dealing with that individual entity or person in the same circumstances, and the terms and conditions are within the normal operating parameters established by Economic Entity's legal mandate.

Where the Economic Entity is exempt from the disclosures in accordance with the above-mentioned paragraph, the Economic Entity discloses narrative information about the nature of the transactions and the related outstanding balances, to enable to users of the financial statements to understand the effect of related party transactions.

Remuneration of management includes remuneration derived for services provided to the Economic Entity in their capacity as members of the management team or employees. Benefits derived directly or indirectly from the Economic Entity for services in any capacity other than as an employee or a member of management do not meet the definition of remuneration. Remuneration of management excludes any consideration provided solely as a reimbursement for expenditure incurred by those persons for the benefit of the Economic Entity.

The Economic Entity operates in an economic environment currently dominated by entities directly or indirectly owned by the South African government. As a result of the Constitutional independence of all three spheres of government in South Africa, only parties within the same sphere of government will be considered to be related parties. Only transactions with such parties which are not at arm's length and not on normal commercial terms, are disclosed.

1.38 ACCOUNTING BY PRINCIPALS AND AGENTS

An agent is an entity that has been directed another entity (a principal), through a binding arrangement, to undertake transactions with third parties on behalf of the principal and for the benefit of the principal.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2023

1.38 ACCOUNTING BY PRINCIPALS AND AGENTS (CONTINUED)

A principal is an entity that directs another entity (an agent), through a binding arrangement, to undertake transactions with third parties on its behalf and for its own benefit.

A principal-agent arrangement results from a binding arrangement in which one entity (an agent), undertakes transactions with third parties on behalf, and for the benefit of, another entity (the principal).

When the Economic Entity is party to a principal-agent arrangement, it assesses whether it is the principal or the agent in accounting for revenue, expenses, assets and/or liabilities that result from transactions with third parties undertaken in terms of the arrangement. The assessment of whether the Economic Entity is a principal or an agent requires the Economic Entity to assess whether the transactions it undertakes with third parties are for the benefit of another entity or for its own benefit.

The Economic Entity assesses whether it is an agent or a principal by assessing the rights and obligations of the various parties established in the binding arrangement.

Where the terms of a binding arrangement are modified, the parties to the arrangement shall re-assess whether they act as a principal or an agent in accordance with this Standard.

When the Economic Entity in a principal-agent arrangement concludes that it undertakes transactions with third parties for the benefit of another entity, then it is the agent. If an entity concludes that it is not the agent, then it is the principal in the transactions.

The Economic Entity is an agent when, in relation to transactions with third parties, all three of the following criteria are present:

- (a) It does not have the power to determine the significant terms and conditions of the transaction.
- (b) It does not have the ability to use all, or substantially all, of the resources that result from the transaction for its own benefit.
- (c) It is not exposed to variability in the results of the transaction.

Where the Economic Entity has been granted specific powers in terms of legislation to direct the terms and conditions of particular transactions, it is not required to consider the criteria on whether it does not have the power to determine the significant terms and conditions of the transaction, to conclude that is an agent. The Economic Entity applies judgement in determining whether such powers exist and whether they are relevant in assessing whether an entity is an agent.

Where the Economic Entity acts as a principle, it recognises revenue and expenses that arise from transactions with third parties in a principal-agent arrangement in accordance with the requirement of the relevant Standards of GRAP.

Where the Economic Entity acts as an agent, it recognises only that portion of the revenue and expenses it receives or incurs in executing the transactions on behalf of the principal in accordance with the requirements of the relevant Standards of GRAP.

The Economic Entity recognises assets and liabilities arising from principal-agent arrangements in accordance with the requirements of other Standards of GRAP.

1.39 LIVING AND NON-LIVING RESOURCES

Living resources are those resources that undergo biological transformation which comprises the processes of growth, degeneration, production, and procreation that cause qualitative or quantitative changes in a living resource.

Non-living resources are those resources, other than living resources, that occur naturally and have not been extracted. Non-living resources, other than land, is not recognised. The Standard only requires disclosure of the relevant resources.

The Economic Entity has assessed that it does not control any living resources.

1.40 SEGMENT REPORTINGS

A segment is an activity of the Economic Entity:

- (a) that generates economic benefits or service potential (including economic benefits or service potential relating to transactions between activities of the same Economic Entity);
- (b) whose results are regularly reviewed by management to make decisions about resources to be allocated to that activity and in assessing its performance; and
- (c) for which separate financial information is available.

Management comprises those persons responsible for planning, directing and controlling the activities of the Economic Entity, including those charged with the governance of the Economic Entity in accordance with legislation.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2023

1.40 SEGMENT REPORTINGS (CONTINUED)

Financial information relating to the reporting segments are aligned to the financial information distributed to management on a regular basis (similar basis of preparation). This information is utilised to measure performance of the relevant services provided by the Economic Entity and also to ensure that resources are appropriately allocated to various departments/segments to provide high quality services to the community.

Adjustments and eliminations made in preparing the Economic Entity's financial statements, which includes the allocation basis of revenues and expenses, are prepared on a similar basis as the information distributed to management on a regular basis.

Financial information distributed to management does not include a segment/department analysis of assets and liabilities associated with each segment/department. In line with this principle utilised during the financial year, the segment reporting included in the financial statements are prepared on a similar basis which excludes such an analysis. Assets and liabilities are reported on for the Economic Entity as a whole.

Management reviews capital expenditure/performance on a regular basis and accordingly the relevant information is reported on per segment.

1.41 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

In the process of applying the Economic Entity's accounting policy, management has made the following significant accounting judgements, estimates and assumptions, which have the most significant effect on the amounts recognised in the financial statements:

1.41.1 Application of Directive 7

For deemed cost applied to Property, Plant and Equipment as per adoption of Directive 7, management used the depreciation cost method which was based on assumptions about the remaining duration of the assets.

For deemed cost applied to land and buildings as per adoption of Directive 7, management made use of on independent valuator. The valuator's valuation was based on assumptions about the market's buying and selling trends and the remaining duration of the assets.

For deemed cost applied to intangible assets as per adoption of Directive 7, management used the depreciation cost method which was based on assumptions about the remaining duration of the assets.

For deemed cost applied to Investment Property as per adoption of Directive 7, management made use of on independent valuator. The valuator's valuation was based on assumptions about the market's buying and selling trends and the remaining duration of the assets.

1.41.2 Impairment of Receivables

The calculation in respect of the impairment of receivables is based on an assessment of the extent to which debtors have defaulted on payments already due, and an assessment of their ability to make payments based on their creditworthiness. This was performed per service-identifiable categories across all classes of debtors.

1.41.3 Useful lives and residual values

The useful lives of assets are based on management's estimates. Management considers the impact of technology, availability of capital funding, service requirements and required return on assets to determine the optimum useful life expectation, where appropriate.

The estimated residual values of assets are also based on management's judgement on whether the assets will be sold or used to the end of their useful lives, and what their condition will be at that time.

1.41.4 Impairment of non-monetary assets

Non-monetary assets can include, but is not limited to, Property, Plant and Equipment, Investment Property, Intangible assets and Heritage assets.

The Economic Entity is not a profit-oriented entity, as its primary objective is service delivery. Tariffs and charges are cost-reflective to ensure continued financial sustainability. No profit element is included in the determination of a tariff. As such, management has determined that the Economic Entity does not control assets that meet the definition of cash-generating assets and that the Standard of GRAP on Impairment of Non-cash-generating Assets will apply to all assets of the Economic Entity.

The calculation in respect of the impairment of non-monetary assets is based on an assessment of the extent to which the recoverable amount of the asset has declined below the carrying amount. This calculation will only be performed if there is an indication of an impairment.

1.41.5 Post-Retirement, Long-term Benefits and Ex gratia gratuities

The cost of post-retirement medical obligations, long-service awards and Ex gratia gratuities are determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, expected rates of return on assets, future salary increases, mortality rates and future pension increases. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2023

1.41 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS (CONTINUED)

1.41.6 Provisions and Contingent Liabilities

Management's judgement is required when recognising and measuring provisions, as well as when measuring contingent liabilities. Provisions are discounted where the time value effect is material.

The provision for rehabilitation of the landfill site is recognised as and when the environmental liability arises. The provision is calculated by a qualified environmental engineer. The provision represents the net present value at the reporting date of the expected future cash flows to rehabilitate the landfill site. The discount rate used to calculate the effect of time value of money is linked to the index for earthworks as published by Statistics South Africa.

1.41.7 Distinguishing between Financial Instruments and Statutory Receivables

The Economic Entity analyses the terms and conditions of the transactions that give rise to its receivables in order to understand whether they arise directly from legislation or similar means, or from a separate contract concluded with a party. Judgement is applied in applying the principles as set out in the respective Standards of GRAP on Financial Instruments and Statutory Receivables.

1.41.8 Financial assets and liabilities

The classification of financial assets and liabilities, into categories, is based on judgement by management. In making the judgement, management considered the definition and recognition criteria for the classification of financial instruments as set out in the Standard of GRAP on Financial Instruments.

1.41.9 Revenue Recognition

Accounting Policy on Revenue from Non-Exchange Transactions and Accounting Policy on Revenue from Exchange Transactions describes the conditions under which revenue will be recognised by management of the Economic Entity.

In making their judgement, management considered the detailed criteria for the recognition of revenue as prescribed in the Standard of GRAP on Revenue from Exchange Transactions and Standard of GRAP on Revenue from Non-Exchange Transactions. Specifically, when goods are sold, whether the significant risks and rewards of ownership of the goods have been transferred to the buyer and when services are rendered, whether the service has been performed.

1.41.10 Recognition and Derecognition of Land

In order for land to be meet the definition of an asset, the Economic Entity must be able to prove that control is being exercised. Control of land is evidenced by either legal ownership and/or the right to direct access to land, and to restrict or deny the access of others to land.

To demonstrate access/restriction rights, the Economic Entity assesses whether it has a substantive right for an unlimited period through a binding arrangement.

The above-mentioned assessment is subject to management's judgements and assumptions are applied to conclude that the Economic Entity controls land.

1.41.11 Applying materiality

Since materiality is an entity-specific concept, its application may result in different outcomes based on the Economic Entity's circumstances. The assessment of materiality therefore requires management to apply judgement about:

- (a) How information could reasonably be expected to influence the discharge of accountability by the Economic Entity or decisions that the users make on the basis of those financial statements.
- (b) How the nature or size or both, of the information could reasonably be expected to influence users' decisions.

1.41.12 Provision for Performance bonuses

The provision for performance bonuses represents the best estimate of the obligation at year end and is based on historic patterns of payment of performance bonuses. Performance bonuses are subject to an evaluation by Council.

1.41.13 Componentisation of Infrastructure assets

All infrastructure assets are unbundled into their significant components in order to depreciate all major components over the expected useful lives. The cost of each component is estimated based on the current market price of each component, depreciated for age and condition and recalculated to cost at the acquisition date if known or to the date of initially adopting the standards of GRAP.

all consumer balances outstanding based on the payment ratio over 12 months. Based on these payment trends, management is satisfied that no further credit provision is required in excess of the current allowance. The risk of non-payment is further mitigated due to the large customer base over which the outstanding receivable balance is spread.

This investment matures on 1 April 2024. Accordingly, the investment was transferred to current investments on 30 June 2023.

Fi

Fixed Deposits are investments with a maturity period of more than 12 months and an average interest rate of 9.13% per annum. (2022 - 9.13%). Interest rates are considered to be market related. The carrying amount of these fixed deposits approximates their fair value.

Investments are made in terms of the Economic Entity's Cash Management and Investment Policy, as required by Regulation R 308 of 1 April 2005 gazetted in the Government Gazette No 27431 of 1 April 2005 and issued by the Minister of Finance.

The Economic Entity has a 100% shareholding in Joe Gqabi Economic Development Agency (Soc) Ltd (JoGEDA). The purpose of the entity is to promote economic development in the district.

7 NON-CURRENT INVESTMENTS (CONTINUED)

Prior to 1 July 2012, JoGEDA was still in its establishment phase. All contributions made by the Economic Entity during the establishment phase was capitalised as part of the investment. In the 2012/13 year, JoGEDA became operational as a result thereof, contributions made by the Economic Entity are no longer capitalised. These contributions are treated as Grants and Subsidies Paid.

The provision for impairment is based on the difference between the amount invested and the net asset value of JoGEDA. The provision for impairment is calculated on an annual basis. Net asset value of JoGEDA as disclosed in their annual financial statements was stated at R 621 319 (2022 - R 4 574 493) and accordingly the asset was impaired to this level in 2022/2023.

Accumulated Impairment	(1 129 695)	(1 466 593)	-	(336 898)

No revenue derived from the rental of investment property.

No operating expenditure was incurred on investment property during the 2021/2022 and 2022/2023 financial years on investment properties.

There are no restrictions on the realisability of Investment Property or the remittance of revenue and proceeds of disposal.

There are no contractual obligations to purchase, construct or develop investment property or for repairs, maintenance or enhancements.

The impairment charge relates to 2 properties where the condition of the improvements deteriorated to such an extent that there are no future economic benefits associated with these assets. The properties were demolished in the 2022/2023 financial year.

Valuations performed in the current year indicated a slight improvement in values from prior years. This triggered the partial reversal of impairment previously recognised on land. The buildings on the investment properties remain fully impaired with no indicators to further impair nor reverse these impairment charges previously raised.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2023

Figures in Rand	ECONOMI	C ENTITY	MUNICIPALITY	
	30 JUNE 2023	30 JUNE 2022	30 JUNE 2023	30 JUNE 2022
11 CURRENT EMPLOYEE BENEFITS (CONTINUED)				
The movement in current employee benefits are reconciled as follows:				
Bonuses				
Opening Balance	6 109 419	6 154 765	5 750 268	5 758 338
Contribution during the year	14 108 445	13 111 078	13 336 650	12 466 824
Payments made	(13 667 462)	(13 156 424)	(12 994 704)	(12 474 894)
Closing Balance	6 550 401	6 109 419	6 092 215	5 750 268
Bonuses are being paid to all municipal staff, excluding Directors Technical Services and Community Services who have structured their packages differently. The balance at year end represents the portion of the bonus that have already vested for the current salary cycle. This bonus will be paid out annually in December or pro-rata when employment is terminated.				
Staff Leave				
Opening Balance	19 955 646	24 535 430	19 264 752	23 846 575
Contribution during the year	3 571 870	(1 956 821)	3 455 671	(2 224 988)
Payments made	(3 569 445)	(2 622 963)	(3 509 897)	(2 356 835)
Closing Balance	19 958 071	19 955 646	19 210 526	19 264 752
Staff leave is accrued to employees according to a collective agreement. Provision is made for the full cost of accrued leave at the reporting date. This provision will be realised as employees take leave or when employment is terminated.				
Performance Bonuses				
Opening Balance	12 459 586	14 340 320	12 459 586	14 340 320
Contribution during the year	5 840 303	4 098 816	5 840 303	4 098 816
Payments made	(5 390 320)	(5 979 550)	(5 390 320)	(5 979 550)
Closing Balance	12 909 570	12 459 586	12 909 570	12 459 586
Performance bonuses are being provided for and only paid to the Municipal Manager, Directors and middle management after an evaluation of performance by the Council.				
Other Provisions				
Opening Balance	582 342	582 342	582 342	582 342
Closing Balance	582 342	582 342	582 342	582 342
Other provisions are non-recurring provisions which consists out of the shortfall in annual earnings of Cape Joint Pension Fund.				
It was reported that the established investment return of the				

It was reported that the established investment return of the fund for the 2009 financial year was -0.94%. Local authorities, including the Economic Entity, associated with the fund are under an obligation to contribute pro-rata to the fund such a sum as will make up for any shortfall between the actual earnings and an investment return of 5.5% on all its

Payables are being recognised net of any discounts received.

As prescribed by the MFMA, all payables are payable within 30 days. This credit period granted is considered to be in line with industry norms. The carrying value of payables are in line with its fair value.

Deposits amounting to R144 961 (2022 - R144 961) serve as security for Payables. The remainder of Payables are unsecured.

Included in Trade Payables at year end is an amount of R 36 775 586 (2022 - R 36 775 586) relating to services rendered by Walter Sisulu Local Municipality. In contrast to the aforementioned, R 73 995 362 is claimed for these services rendered by the local authority. The amount is currently under dispute and the Economic Entity obtained a legal opinion in this regard.

17	EMPLOYEE BENEFITS (CONTINUED)				
	Experience adjustments were calculated as follows in years				
	prior to the comparative year for both the Economic Entity				
	and Municipality:		2021	2020	2019
			R	R	R
	Liabilities: (Gain)/Loss		(735 000)	(4 708 000)	1 758 000
	Assets: Gain/(Loss)		-	-	-
	The Economic Entity contributes to the following medical				
	schemes on a monthly basis:				
	Bonitas				
	LA Health				
	Sizwe-Hosmed Samwumed				
	Keyhealth				
	Key Actuarial Assumptions used are as follows:				
	Interest Rates				
	Discount rate	12.47%	11.82%	12.47%	11.82%
	Health Care Cost Inflation Rate	8.08%	8.43%	8.08%	8.43%
	Net-of-health-care-cost-inflation discount rate	4.06%	3.13%	4.06%	3.13%
	Maximum subsidy inflation rate	5.69%	5.95%	5.69%	5.95%
	Net-of-maximum-subsidy-inflation discount rate	6.42%	5.54%	6.42%	5.54%
	The discount rate used is a composite of all government bonds and is calculated using a technique known as "bootstrapping".				
	Mortality Rates				
	The PA 90 ultimate table, rated down by 1 year of age with a				
	1 % mortality improvement p.a from 2010 was used by the actuaries.				
	Normal Retirement Age				
	The normal retirement age of employees is 65. It has been				
	assumed that employees will retire at age 62 on average, which then implicitly allows for expected rates of ill-health and early retirement.				
	Last Valuation				
	The last valuation was performed on 11 August 2023.				
	Actuarial Valuation Method				
	The Projected Unit Credit Method has been used to value the liabilities.				
	The amounts recognised in the Statement of Financial Performance are:				
	Employee Related Cost - Current Service Cost	1 367 000	1 364 000	1 367 000	1 364 000
	Finance Charges - Interest Cost Actuarial Gain	3 754 000 (5 070 263)	3 048 000 (1 674 093)	3 754 000 (5 070 263)	3 048 000 (1 674 093)
	Net amount charged to Statement of Financial Performance	50 737	2 737 907	50 737	2 737 907

17.4 Other Pension Benefits

Defined Benefit Plans

The Economic Entity requested detailed employee and pensioner information as well as information on the Economic Entity's share of the Pension and Retirement Funds' assets from the fund administrator. The fund administrator confirmed that assets of the Pension and Retirement Funds are not split per participating employer. Therefore, the Economic Entity is unable to determine the value of the plan assets as defined in GRAP 25.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2023

Figures	in Rand	30 JUNE 2023	30 JUNE 2022	30 JUNE 2023	30 JUNE 2022
17	EMPLOYEE BENEFITS (CONTINUED)				
	As part of the Economic Entity's process to value the defined benefit liabilities, the Economic Entity requested pensioner data from the fund administrator. The fund administrator claim that the pensioner data to be confidential and were not willing to share the information with the Economic Entity. Without detailed pensioner data the Economic Entity was unable to calculate a reliable estimate of the accrued liability in respect of pensioners who qualify for a defined benefit pension.				
	Therefore, although the Consolidated Retirement Fund are Multi-Employer funds defined as defined benefit plan, it will be accounted for as defined contribution plan. All the required disclosure has been made as defined in GRAP 25.31.				
	Council contributes to the following defined benefit plans:				
	Consolidated Retirement Fund (former Cape Retirement Fund) The contribution rate payable is 9% by members and 18% by Council. The last actuarial valuation performed for the year ended 30 June 2022 revealed that the fund is in a sound financial position with a funding level of 131.6%. 	Closing Unspent/Unpaid Balance	-	-	-	
	The vision of the MIG programme is to provide all South Africans with at least a basic level of service through the provision of grant finance aimed at covering the capital cost of basic infrastructure for the poor. This also includes the rehabilitation and upgrading of existing infrastructure. The Economic Entity's programmes covers both Sanitation and Water projects.				
19.	05 Expanded Public Works Program (EPWP)				
	Grants Received	1 314 000	1 559 000	1 314 000	1 559 000
	Transferred to Revenue - Operating	(1 314 000)	(1 559 000)	(1 314 000)	(1 559 000
	Closing Unspent Balance			-	
	The EPWP grant is a conditional grant to incentivise municipalities to expand work creation efforts through the use of labour intensive delivery methods in the identified focus areas in compliance with the EPWP guidelines.				
19.	06 Water Services Infrastructure Grant (WSIG)				
	Grants Received	60 000 000	73 000 000	60 000 000	73 000 000
	Transferred to Revenue - Operating	(32 662 561)	(25 848 360)	(32 662 561)	(25 848 360
	Transferred to Revenue - Capital	(27 337 439)	(47 151 640)	(27 337 439)	(47 151 640
	Closing Unspent Balance The WSIG grant is a conditional grant used to facilitate the planning and implementation of various water and on-site sanitation projects to accelerate backlog reduction and enhance the sustainability of services especially in rural				
	municipalities as well as support to municipalities in implementing water conservation and water demand management projects.				
19.	07 Rural Households Infrastructure Grant				
	Opening balance Transferred to Revenue - Operating	4 000 (4 000)	4 000	4 000 (4 000)	4 000
	Closing Unspent Balance	(4 000)	4 000	- (4 000)	4 000
	The grant was introduced as rapid response to the high				- 000
	infrastructure backlogs in rural areas and was intended to				

respond to the specific conditions of rural areas which made it too costly to provide rural households with connector

services.

Rebates are based on the indigents registers being implemented at each of the local municipalities within the Districts' borders. Accordingly, the registers are based on the policies and procedures being implemented at each of the local municipality (Elundini -, Senqu - and Walter Sisulu Local Municipality).

Rebates can be defined as any income that the Economic Entity is entitled to levy, but in terms of Council's own policy opted not to collect it.

The staff leave contribution for the prior year under review is in credit. This is due to more leave being taken compared to the amount of leave days that accrued to officials during the year. The aforementioned can mainly be attributed to the COVID 19 pandemic in previous reporting periods where the movement of people were restricted to a large extent and limited leave was being utilised.

Remuneration of Key Personnel

2

The Municipal Manager and all Section 57 Managers as well as those directly reporting to the Municipal are appointed on a 5-year fixed contract. The have all signed a performance agreement in terms of section 51(1)(b) of the Municipal Systems Act, No 32 of 2000

43.09 DISCLOSURE ADJUSTMENTS

- The Cashbook balance on 30 June 2021 was incorrectly disclosed in the Cash and Cash Equivalents note. Accordingly, the disclosure was adjusted by R 5 027 528 (from R 5 209 725 to R 182 197). Refer to note 2 for more detail. The adjustment did not have any effect on any figures included elsewhere in the financial statements.
- SCM 45 disclosures were restated by R 4 270 332. The adjustment did not have any effect on any figures included elsewhere in the financial statements refer to note 49.9.
- During the review of Property Plant and Equipment, an adjustment between 2 WIP projects amounting to R 5 335 676 was identified and corrected ("Upgrading Sterkspruit water treatment works" and "Maclear bulk sanitation infrastructure upgrade". This change had no effect on total Work in Progress previously reported on 30 June 2021 and 30 June 2022. WIP amounting to R778 818 relating to JoGEDA was incorrectly excluded in prior year.

46 BUDGET COMPARISONS

46.1 COMPARABLE BASIS

Differences were identified between the disclosure requirements in terms of GRAP and the reporting requirements in terms of National Treasury budget formats

The following items are affected by these classification differences:

Statement of financial position

Cash in the budget statement consist of the Primary Bank Account, Cash Floats and Petty Cash.

Call Investment Deposits on the budget statement consist out of Call and short-term investments deposits as well as Current Fixed Assets

Consumer Debtors consist only out of Water and Sanitation Debtors included under Receivables from Exchange Transactions

Other Receivables incorporate all other current receivable balances not specifically provided for in the National Treasury formats, including the remainder of Receivables from Exchange Transactions after excluding Water and Sanitation debtors the South African Revenue Services (if in receivable position).

Trade and Other Payables incorporates Payable from exchange transactions, Unspent grants and the South African Revenue Services (if in payable position).

Long Term Liabilities and Current Portion of Long Term Liabilities are disclosed as Borrowing in the budget statement.

Employee Benefits (Current and Non-Current) are included under the provisions line item in the budget statements.

Statement of financial performance

The statement of financial performance is comparable on a line by line basis except for the following:

The budget statements does not provide for all the different revenue classifications per statement of financial performance. For this reason, all line items not specifically catered for is incorporated under the line item Other Revenue in the budget statement. Other revenue per budget statement consist out of the following line items - Public Contributions and donations and Other Income. Actuarial Gains and Inventory Adjustments are included as part of Gains for budget comparison purposes.

Depreciation and Amortisation and Impairments are aggregated on the budget statements while it is shown separately on the Statement of Financial Performance

The budget statements does not provide for all the different expenditure classifications per statement of financial performance. For this reason, the following line items are aggregated:

Contracted Services also includes VIP Toilets. Repairs and Maintenance are included in both Contracted Services a well as Other Expenditure.

Other than the items identified above (relating to aggregations), the following actual results were also reclassified to ensure that the performance for the year is measured on a comparable basis to the budget approved, which are guided by mSCOA and National Treasury classifications and principles These reclassifications can be illustrated as follows:

46 BUDGET COMPARISONS (CONTINUED)

46.2 MATERIAL VARIANCES

Statement of financial position - Budget Adjustments

Consumer Debtors	The adjustment made was as result of the low collection rate experienced during the financial year.
Other Debtors	The adjustment made was as result of the low collection rate experienced during the financial year.
Property, Plant And Equipment The adjustment made as a result of the reallocation of projects between operational and capital as we removal of R30 million budget for municipal fleet. This is also evident from the borrowing variance.	
Borrowing	The adjustment is as result of R30 million budget for municipal fleet being removed from the budget. This is also evident from the Property, plant and equipment variance.
Trade and Other Payables	Align opening balance of budget to audited results for the year ending 30 June 2022, as well as adjusting outstanding balance to available resources available.
Provisions	Align opening balance of budget to audited results for the year ending 30 June 2022 (downward adjustment due to actuarial gain experienced in prior year).
Accumulated Surplus	Align budget to prior year audited result, also taking into account the budgeted surplus for 2022/2023.

Statement of financial position - Budget versus Actual

Consumer Debtors	Variance is as of result of a lower than expected collection rate.
Other Debtors	Budget significantly exceeded actual results for the current year, due to the 30 June 2022 other receivables closing balance not correctly updated when performing the Adjustments Budget. As well as lesser than estimated other receivables being outstanding as at 30 June 2023. This allowed the municipality to improve trade and other payables management, as evident from the variable trade and other payables variance.
Investments	Variance is as result of the non-current investments transferred to current investments. Lower than expected cash available to invest.
Property, Plant And Equipment	Variance is as result of a significant decrease in depreciation and the transfer of funding from operating expenditure to capital projects.
Trade and Other Payables	Lower than expected balance due to more focus placed on the management of payable balances to reduce it over time.
Accumulated Surplus	Refer to statement of financial performance for surplus that exceeded budget expectations.

Statement of financial performance - Budget Adjustments

Service Charges - Water Revenue	Adjustment due to increase identified in estimates based on billing data available.
Transfers and Subsidies	The adjustment made as a result of the reallocation of funds between operational and capital projects and an increase in allocation from the Provincial Department of Roads and Transport.
Other Expenditure	The increase is largely due to the Economic Entity providing additional budget allocations towards municipal services received from the local municipalities. The extension of the service level agreement between the Economic Entity and the Provincial Department of Roads and Transport (from 1 April 2022 to 31 March 2023) also contributed to the additional budget allocation.
Transfers and subsidies - Capital	The adjustment made as a result of the reallocation of operating expenditure to capital projects.

Statement of financial performance - Budget versus Actual

Service Charges - Water Revenue	Variance is as result of reduced billing compared to estimates during budget cycle.
Service Charges - Sanitation Revenue	Variance is as result of reduced billing compared to estimates during budget cycle.
Interest Earned - Outstanding Debtors	Increase in interest rates and reduction in collectability of outstanding debtors contributed to the variance
Transfers and Subsidies	The reason for the variance is largely as result of WSIG expenditure budgeted for as capital expenditure being classified as operational expenditure during unbundling. This also resulted in the Water Services Provision unauthorised expenditure disclosed. The remaining variance is as result of the VAT portion of capital expenditure not previously classified as operational expenditure.
Depreciation & Asset Impairment	Variance is as result of the reduction in Capital budget of R30 million (municipal fleet) and the value of Work In Progress PPE transferred to Infrastructure assets being less than estimated.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2023

46 BUDGET COMPARISONS (CONTINUED)

Statement of financial performance - Budget versus Actual (Continued)

Inventory Consumed	Variance is as result of differences in classification as well as the Economic Entity incurring less expenditure due to the Economic Entity experiencing financial difficulties at period during the year.
Contracted Services	Variance is as result of differences in classification as well as the Economic Entity incurring less expenditure due to the Economic Entity experiencing financial difficulties at period during the year.
Other Expenditure	Variance is as result of differences in classification as well as the Economic Entity incurring less expenditure due to the Economic Entity experiencing financial difficulties at period during the year.
Transfers Recognised - Capital	Refer to operating Transfers and Subsidies.

Cash Flow Statement - Budget Adjustments

Transfers and Subsidies - Operational	Adjustment is as result of transfers of funds between operational and capital projects and adjustment of Department of Roads and Transport grant allocation for the 2022/23 financial year.
Transfers and Subsidies - Capital	Adjustment is as result of transfers of funds between operational and capital projects.
Suppliers and Employees	Adjustment is as result of a reduction in expenditure due to the lower collection rate.
Capital Assets	Adjustment is as result of the R30 million reduction in municipal fleet budget, which would have been financed through borrowings.
Borrowing long term/refinancing	Adjustment is as result of the R30 million reduction in municipal fleet budget, which would have been financed through borrowings.

Cash Flow Statement - Budget versus Actual

Service Charges	Variance is as result of reduced billing as well as the collection rate being lower than estimated.
Transfers and Subsidies - Operational	The variance is as a result of the reallocation of funds between operational and capital projects which and an increase in allocation from the Provincial Department of Roads and Transport.
Transfers and Subsidies - Capital	Variance is as result of the reduction in capital project expenditure.
Suppliers and Employees	Variance is as result of actual cash flow not being as planned as evident from the decreased expenditure items.
Capital Assets	Variance is as of delays in capital expenditure due as well as the VAT portion being included in the budgeted amount as required by Treasury and the front loading repayment not forming part of capital expenditure.
Repayment of Borrowing	Variance is as result of the front loading being repaid during the current financial year not budgeted for
Cash/cash equivalents at the year begin:	Budget not aligned to prior year audited results.

47

UNAUTHORISED, IRREGULAR, FRUITLESS AND WASTEFUL EXPENDITURE

47.1 UNAUTHORISED EXPENDITURE

Unauthorised expenditure consist out of the following:

Opening balance	164 753	109 474 258	164 753	109 474 258
Unauthorised expenditure current year - operating	24 013 603	-	24 013 603	-
Unauthorised expenditure current year - capital	-	-	-	-
Written off by Council	-	(109 309 505)	-	(109 309 505)
Unauthorised expenditure awaiting approval	24 178 356	164 753	24 178 356	164 753

The unauthorised expenditure relates to operating expenditure identified and budgeted for as part of capital expenditure. The Economic Entity is still within the total budget appropriation (operating and capital) for the year.

Unauthorised expenditure only relates to expenditure in excess of approved budget votes. The unauthorised expenditure is still under investigation. No disciplinary steps or criminal proceedings were instituted as a result of unauthorised expenditure incurred pending the outcome of the investigation.

Legal Fees and other associated Costs - Extension of Employment Contracts

On the 28 March 2019 the Council resolved to rescind its previous resolution to extend the employment contracts of the Municipal Manager, the Director: Corporate Services, the Director: Technical Services and the Director: Community Services.

14 358

645 608

631 250

14 358

639 488

625 130

The matter was determined to be unlawful. A Council meeting did not sit to reverse the decision. The matter was taken to the Labour Court by the affected senior managers and a Rule Nisi was granted in favour of the managers and Joe Gqabi District Municipality was directed to pay the applicant's costs associated with this matter.

An advice was then sought form the National Treasury in this regard and they indicated that is likely fruitless and wasteful expenditure and that it must establish an interim committee to investigate the recoverability of the identified fruitless and wasteful expenditure if the MPAC members are conflicted. The Audit committee was then tasked to investigate the matter and found that the money must be recovered from Councillors.

Interest on late payment of Transnet invoices

Interest on late payment of AG Invoices

The fruitless and wasteful expenditure incurred from June 2015 relates to interest on late payment of Transnet invoices and sometimes late renewal on lease agreements which further delayed the payments of invoices. At the time of payment of the above mentioned amount payments were done by the municipality on behalf of the entity, the matter is still in progress.

The responsible officials are no longer employed by the Agency. Engagements with Transnet are on - going with regard to the request to write off the interest from the account of the entity.

Interest on late payment of AG Invoices

Interest were recognised for late payments on invoices of the Auditor General. Preliminary investigations indicate an amount of R 13 730 relates to invoices received in SPAM mailbox and was therefore paid late. This was reported to Council as part of the June 2023 SCM report and is still under investigation.

	Total	44 114 902	17 851 031	43 148 228	15 910 470

Approved by Council on 29 October 2020. On 14 December 2021 the new Council was also briefed on the matter before a resolution was taken in line with the former council to approve the irregular expenditure incurred relating to functionality. The final payments made during 2022/2023 was presented to Council before 30 June 2023.

The Council of Joe Gqabi District Municipality took a resolution that JoGEDA be the implementing agent for the District Municipality in the implementation of identified the water and sanitation projects. JoGEDA as an entity of the Joe Gqabi District Municipality is bound by the laws and regulations affecting the parent entity. Any findings of irregular expenditure within the entity reflect on the parents records.

Functionality issue:

JoGEDA as an economic development agency used the locality of Joe Gqabi District Municipality as a functionality criterion in its procurement processes until December 2019. This has raised an irregularity in all the procurement undertaken by JoGEDA until December 2019 as procurement was seen as a key driver of local economic development and being able to prefer local suppliers was a stated intention of the agency. The finding has been that locality of Joe Gqabi District Municipality cannot be used as a functionality criterion as the policy refers to South Africa being the local area and this may be seen as unfair to all bidders.

Due to this finding, management has reviewed all tenders awarded prior to the ruling on the matter of locality and included those in irregular expenditure.

Inclusion of locality as a functionality factor in the procurement of panel of service providers

The Irregular expenditure relates to the inclusion of locality as a functionality factor in the procurement of panel of service providers for the implementation of JoGEDA assigned projects. The contracts are still running and thus as per the recommendation to MPAC all Irregular Expenditure needs to be disclosed in the AFS before write off.

MPAC has investigated the process and no disciplinary action required. Training and capacitating of SCM unit and bid committees on-going.

The matter was presented to MPAC and Council and the expenditure from contracts from Irregular Expenditure is awaiting write off. Management is waiting to quantify all expenditure including future expenditure for a write off.

48 MATERIAL LOSSES (CONTINUED)

There were minor improvements in Maletswai and slight increase in Elundini areas this past year. There was however a significant increase recorded for the Senqu area. There are some mitigating factors beyond the control of JGDM that influenced the result as explained below.

The Economic Entity is in the process of implementing a Water Conservation & Demand Management Project funded by the WSIG for the last 2 years, focusing on installation of bulk water meters and fixing of leaks. Another initiative is the provision of new reservoirs in strategic areas to replace old leaking water reservoirs. There is also the MIG funded project being implemented in Maclear called AC Pipe Replacement which will also, once completed, contribute to the reduction of water losses.

Water treatment losses occur at the water treatment plant where both raw water (measured after the raw water intake meter) and treated water are used to clean the water treatment system by means of processes called backwashing and flushing. These losses are unavoidable as it is a critical operation & maintenance procedure to ensure the water treatment plant operates optimally.

49	ADDITIONAL DISCLOSURES IN TERMS OF MUNICIPAL FINANCE MANAGEMENT ACT (CONTINUED)				
49.7	7 QUOTATIONS AWARDED - DEVIATIONS FROM SCM				
	Approved deviations from Supply Chain Management Regulations were identified on the following categories:				
	Emergencies	27 408 644	67 712 663	27 408 644	67 712 663
	Goods and services are available from a Single provider only	156 517	349 524	99 074	343 644
	Other exceptional cases where it is impractical or impossible to follow the official procurement processes e.g. Strip and	2 520 475	1 739 022	2 520 475	1 649 926
	Minor deviation (Regulation 25)	78 066	-	-	-
	Total	30 163 702	69 801 209	30 028 193	69 706 233

The term "strip and quote" is an estimate by a technical person to scope to ascertain any hidden or latent defects before repairs can be started.

It is considered "impractical" where, for example, repairs need to be done and it is not possible for the Economic Entity to ascertain or specify the nature or extent of the work required. This may require a "strip and quote" to determine the scope of work to be done to rectify the situation. This may require dismantling of the asset. This is common on mechanical, electrical and related repairs.

Deviations per department:

rigures ili	<i>Nullu</i>	30 JUNE 2023	30 JUNE 2022	30 JUNE 2023	30 JUNE 2022
52	FINANCIAL RISK MANAGEMENT				
	The Economic Entity is potentially exposed to the following risks:				
52. 1	L Credit Risk				
	Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.				
	The following financial assets are exposed to credit risk:				
	Receivables from Exchange Transactions	652 612 149	467 003 025	652 599 479	466 990 355
	Receivables from Non-Exchange Transactions	172 198	104 797	-	-
	Cash and Cash Equivalents	8 817 289	32 245 019	5 854 146	24 859 712
	Current Investments	2 147 455	-	2 147 455	-
	Non-current Investments	-	2 053 454	621 319	3 947 510
	Unpaid Conditional Grants and Subsidies	6 201 854	10 911 039	6 201 854	10 911 039
	Total	669 950 945	512 317 334	667 424 252	506 708 615

Cash and Cash Equivalents

Deposits of the Economic Entity is only held at reputable banks that are listed on the JSE Stock Exchange. The credit quality is regular monitored through required SENS releases by the various banks. The risk pertaining to these deposits are considered to be very low.

There are no restrictions on the cash deposits held, no cash were pledged as security and no collateral is held for any cash and cash equivalents.

Credit risk is further managed and guided by the Cash Management and Investment Policy.

Receivables from Exchange Transactions

Receivables comprise of a large number of users, dispersed across different sectors and geographical areas. On-going credit evaluations are performed on the financial condition of these receivables. Credit risk pertaining to receivables are considered to be moderate due the diversified nature of receivables and immaterial nature of individual balances. In the case of consumer debtors the Economic Entity effectively has the right to terminate services to customers but in practice this is difficult to apply.

In the case of debtors whose accounts become in arrears, Council endeavours to collect such accounts by "levying of penalty charges", "demand for payment", "restriction of services" and, as a last resort, "handed over for collection", whichever procedure is applicable in terms of Council's Credit Control and Debt Collection Policy.

Receivables are disclosed after taking into account the provision for impairment raised against each class of receivable.

Receivables are payable within 30 days. All receivables outstanding for more than 30 days are considered to be passed due.

Refer to note 4 for more information regarding the provision for impairment raised against each service type as well as receivables considered to be passed due.

Also refer to note 4 for more information regarding balances renegotiated beyond the original 30 days payment period initially granted.

Total	652 599 479	467 359 750	652 599 479	467 359 750

Non-Current Investments

Non-Current Investments consist out of a fixed deposit at the Development Bank of South Africa as well as an investment in a municipal entity. Management assessed the risk of counter party default on these investments as low.

Refer to note 7 for more detail with regards to these assets and any impairment charges raised against these investments to reduce the carrying value of the investment in line with its recoverable amount.

Unpaid Conditional Government Grants

Although the risk pertaining to unpaid conditional grants and subsidies are considered to be very low, the maximum exposure is disclosed. Amounts are receivable from national and provincial government and there are no expectation of counter party will default.

52.2 Currency risk (Market Risk)

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The financial instruments of the Economic Entity is not directly exposed to any currency risk.

52.3 Interest rate risk (Market Risk)

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The following balances are exposed to interest rate fluctuations:

Net balance exposed	7 404 264	(29 807 784)	4 554 533	(37 193 091)
Long-term Liabilities (Including Current Portion)	(1 413 025)	(62 052 803)	(1 299 613)	(62 052 803)
Cash and Cash Equivalents (Excluding Cash on Hand)	8 817 289	32 245 019	5 854 146	24 859 712

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2023

gures in Rand		ECONOMI 30 JUNE 2023	ECONOMIC ENTITY 30 JUNE 2023 30 JUNE 2022		IPALITY 30 JUNE 2022
2	FINANCIAL RISK MANAGEMENT (CONTINUED)				
	Potential effect of changes in interest rates on surplus and deficit for the year:

	Management does not foresee significant interest rate movements during the next 12 months.				
52	2.4 Liquidity risk				
	Liquidity risk is the risk encountered by an entity in the event of difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.				
	Liquidity risk is mitigated by approving cash funded budgets at all times to ensure commitments can be settled once due over the long term. The Economic Entity also monitors its cash balances on a daily basis to ensure cash resources are available to settle short term obligations.				
	The following balances are exposed to liquidity risk:				
	ECONOMIC ENTITY

52 FINANCIAL RISK MANAGEMENT (CONTINUED)

Payables from exchange transactions were also restated to remove payments in advance as well as unallocated deposits, as it does not meet the definition of a financial instrument and there are no expectation that funds will flow out of the Economic Entity as a result of these liabilities recognised. Also, there are no contractual counter party.

52.5 Other price risk (Market Risk)

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

The Economic Entity is not exposed to any other price risk.

53 FINANCIAL INSTRUMENTS

The Economic Entity recognised the following financial instruments (All balances are recognised at amortised cost.)

Financial Assets

		2 052 454		2 052 454

Total	155 670 211	225 222 587	157 443 120	220 659 707

54 STATUTORY RECEIVABLES

In accordance with the principles of GRAP 108, Statutory Receivables of the Economic Entity are classified as follows:

Taxes				
VAT Receivable from SARS (VAT Control)	231 162	11 529 427	231 162	11 529 427
Total	231 162	11 529 427	231 162	11 529 427

The VAT Receivable is considered an Exchange Receivable.

The VAT receivable from SARS is considered to be Statutory Receivable. Input Vat in Suspense is not included in the disclosure as there are no transaction to "settle" with a specific counterparty (SARS) at year-end.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2023

Figures in Rand	ECONOM	IC ENTITY	MUNICIPALITY		
	30 JUNE 2023	30 JUNE 2022	30 JUNE 2023	30 JUNE 2022	

55 EVENTS AFTER REPORTING DATE

A case of misconduct associated with unauthorised absence from work was being investigated by the Economic Entity during the year under review. The matter was resolved subsequent to the financial year end and the affected employee was dismissed on 16 August 2023. The process of recovering an amount of R277 404.22 associated with the mentioned unauthorised absence from work for a period of 14 months was instituted by the Economic Entity subsequent to year end.

56 IN-KIND DONATIONS AND ASSISTANCE

The Economic Entity occupies a building of Walter Sisullu Local Municipality at 27 Dan Pienaar in Aliwal North. Walter Sisulu Local Municipality does not charge any rent for this occupation.

57 PRIVATE PUBLIC PARTNERSHIPS (PPP's)

The Economic Entity did not enter into any PPP's in the current and prior year.

58 CONTINGENT LIABILITIES

The Economic Entity were exposed to the following contingent liabilities at year end:

Liabilities applicable to 30 June 2022 and 30 June 2023

- 58.01 The Department of Water and Sanitation is claiming an amount R37 660 353 from the Economic Entity for raw water extraction costs. This amount is made up of a number of invoices, dating back as far as 2002. The Economic Entity has had extensive interactions with the Department, but this amount has not been finalised. The Economic Entity's Management is of the opinion that this amount is firstly grossly overstated and in some cases refers to areas outside the District's jurisdiction. An accrual of R10 531 551 for bulk water purchases has been made and this amount is considered to be due and payable to the Department. The net amount of the contingency is R27 128 802. The Economic Entity is in ongoing negotiations with the Department. The Department submitted a request to its Minister and Director General to write off the amount. This decision is still pending. The Department is also considering drought relief measures for the current year's raw water extraction costs. This decision is also pending.
- **58.02** There was an accident which occurred between a vehicle of Senqu Municipality and a truck driven by an employee of the Economic Entity. The insurance is claiming for damages from the Economic Entity and the Economic Entity is contesting the claim. The case is Pending, JGDM filed a notice of exception. Likelihood of the municipality to lose this case is medium to low. The amount of the claim in this case is R382 119.66 and we are waiting for the Court date and the likelihood of losing this case is still low. The matter is still in trial stage. This matter is being negotiated between two parties for a settlement.
- **58.03** Magnocorp v Spec and JGDM In this matter JGDM received a notice of motion wherein Magnocorp is stating that Spec filed fraudulent information while applying for Tender at the Economic Entity. This comes after Spec interdicted Magnocorp from doing the work after they have been appointed by the Economic Entity. The Economic Entity is cited as a second respondent in this matter and Notice to oppose has been filed in Court. The matter is still pending in Court.
- 58.04 TA Stera Enterprise This is a case where the plaintiff is claiming an amount of R1 800 000 saying there was an illegitimate expectation created by one of the employees of the Economic Entity where he applied for a tender and such was not granted to him. The likelihood of losing the case is medium. Notice of intention to sue was received and no summons yet. This matter was withdrawn by the Plaintiff. Subsequent to that another summons was received with a different amount of claim and different facts. There is an application to Court by the Economic Entity for the withdrawal of the case by the Plaintiff on the basis that the Economic Entity cannot plead to the summons received as there was no notice to amend the first summons received by the Economic Entity since content is still the same. Rule 30 Notice was served on the Plaintiff. Matter is still pending since the plaintiff is not doing anything about the case and the Economic Entity is the Respondent and it is the duty of the Plaintiff to set the matter down for trial once all pleadings have been closed and in this matter pleadings are not yet closed but the Plaintiff seem to have abandoned this matter. The Plaintiff had passed on and awaiting correspondence from his attorneys on the way forward.
- **58.05** Spec v JGDM This is a case where Spec interdicted Magnocorp from carrying on with the works after it had been awarded a Tender by the Economic Entity. This matter was on trial on the 12 of August 2021 at the Grahamstown High Court and we are waiting for the judgment. This matter is on appeal to the full bench of the Grahamstown High Court as the Applicants are not happy with the decision of the single judge. This matter was postponed on the date of appeal before the full bench and there is no new court date yet.
- **58.06** Fiona Sephton v JGDM The erstwhile Director: Community Services, Mrs F.J Sephton, following her resignation, which took effect on 31 January 2022, referred a constructive dismissal dispute to the SALGBC, which is associated with alleged intolerable working conditions created by the Economic Entity. An arbitration award has since been awarded in favour of the Economic Entity, which the ex-employee in question has since taken on review to the Labour Court (LC) and which matter has not been heard by the LC yet. The ex-employee is seeking relief in the amount of R1 984 780.09 (One million nine hundred and eighty-four thousand seven hundred and eighty rand and nine cents only), interest on the afore-mentioned amount from the date of mora, alternatively from the date of judgment at the prescribed legal rate of interest of 9% per annum, alternatively an order in terms of section 77A(e) of the BCEA as well as the cost of suit. This constitutes a contingent liability to the Economic Entity. The liability rating, based on the merits of the case is regarded as a medium risk contingent liability to the Economic Entity.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2023

Figures in Rand	ECONOMIC	ENTITY	MUNICIPALITY	
rigures in Kunu	30 JUNE 2023	30 JUNE 2022	30 JUNE 2023	30 JUNE 2022

58 CONTINGENT LIABILITIES (CONTINUED)

Liabilities applicable to 30 June 2022

58.07 On 24 August 2021, an employee resigned and later referred the matter to CCMA for alleged constructive dismissal. The required outcome by the former employee was compensation amounting to 12 months of the former salary. At CCMA, the process of conciliation was unsuccessful and matter was referred to Arbitration, wherein both parties submitted bundles and presented their respective case before the Commissioner. On 13 June 2022 an arbitration award was issued, which stated that the resignation of the employee does not constitute a constructive dismissal and as such the employee is not entitled to any relief. Therefore, based on the outcome of the arbitration award, there is no financial obligation for the Agency. Although the initial constructive dismissal case was finalised before year-end, a further letter of demand was received from Butler Attorneys on behalf of the former employee for alleged 9 annual leave days amounting to R46 225.20, no further litigation document has been received since. The matter was finalised in 2022/23.

59 CONTINGENT ASSETS

The Economic Entity has the following contingent assets at year end:

- 59.01 The Economic Entity identified possible fraud which is currently under investigation by the SAPS and the outcome is unsure at this stage. The matter has been referred to the Municipal attorneys to claim from the medical aid scheme in question. No court date has been set on the reporting date. The Economic Entity is awaiting the investigation report to proceed with litigation. No report is forthcoming after numerous correspondence to the Medical Aid and the Municipal Attorneys are proceeding with summons against Medichex and Hosmed.
- **59.02** There is an amount of R287 823.18 which is a contingent asset in the matter of WDR Earthmoving Enterprise v JDGM which relates to costs that the Economic Entity has to recover from Amadwala. The attorneys advised that they will apply for Amadwala to be declared insolvent and that is the only route available for now since Amadwala has more debt and could not afford to pay any. This is an ongoing matter. According to the attorneys, Amadwala is under business rescue with creditors in excess of R149 million. The matter is being attended to by our attorneys for recovery.
- **59.03** A claim has been lodged against Zamazondo, due to the materials as per the cession agreement, that was paid to Sizabantu based on a court order was never used by the service provider on the project. The claim is to recover the monies from Zamazondo that was paid to Sizabantu. The matter is still pending.
- 59.04 There is a contingent asset for legal costs in favour of the Economic Entity in the TA Stera Enterprise matter which was withdrawn by his attorneys for an amount of R141 396,88. The attorneys is attending to the matter through a claim against his estate.

60 B-BBEE PERFORMANCE

Information on compliance with the B-BBEE Act is included in the annual report under the section titled B-BBEE Compliance Performance Information.

61 RELATED PARTIES

Related parties are defined in note 1.37.

All rates, service charges and other charges in respect of related parties are in accordance with approved tariffs that were advertised to the public. No impairment charge have been recognised in respect of amounts owed by related parties.

There are no loans outstanding to any related party. Since 1 July 2004 loans to Councillors and senior management employees are not permitted.

Remuneration of related parties are disclosed in notes 27, 28 and 29.

No business transactions took place between the Economic Entity and management personnel and their close family members (including close members of family members) during the year under review.

The Economic Entity has a 100% shareholding in Joe Gqabi Economic Development Agency (Soc) Ltd (JoGEDA) as set out in note 7 to the financial statements. The Economic Entity incurred expenditure on behalf of JoGEDA.

The Economic Entity paid a grant to JoGEDA as disclosed in note 37.

Also refer to note 63 relating to the principle agent relationship between the Economic Entity and JoGEDA.

62 IMPACT OF COVID-19 ON FINANCIAL SUSTAINABILITY

A National State of Disaster was declared in terms of the Disaster Management Act, 2002 (Act No. 57 of 2002), and published in Government Gazette No. 43096 on 15 March 2020 due to a SARS-CoV-2 viral pandemic (commonly known as Covid-19). The National State of Disaster was ended during the previous financial year.

The Economic Entity incurred no expenditure directly linked to the fight against the COVID-19 pandemic in current and prior year.

63 ACCOUNTING FOR PRINCIPALS AND AGENTS

The Economic Entity act as Principle in its binding arrangement with Joe Gqabi Economic Development Agency (Soc) Ltd, which is a fully owned municipal entity. The Joe Gqabi Economic Development Agency (Soc) Ltd engages with service providers and contractors on behalf of the Economic Entity during the implementation of the municipal operating and capital projects. An agency fee is paid to the Joe Gqabi Economic Development Agency (Soc) Ltd in this regard. The following fees were paid and receivables were raised as a result of the agreement:

Fees Paid to Joe Gqabi Economic Development Agency (Soc) Ltd (Excluding VAT)	7 220 969	9 226 010
Implementing fee payable (Including VAT)	1 983 356	3 932 165
Additional Information - Payables from exchange transactions where the Economic Entity acts as a principal in the principal-agent binding agreement with the Joe Gqabi Economic Development Agency (Soc) Ltd (Including VAT)	12 162 762	27 314 750
	11 102 / 02	27 511750

64 NON-LIVING RESOURCES

Management identified the following non-living resources (other than land):

- Aquifer (from where water is extracted by utilising boreholes)

65 SEGMENT REPORTING

65.1 General information

The segments were organised based on the type and nature of service delivered by the Economic Entity. These services are delivered in various municipal departments, which for reporting purposes are allocated to a standardised functional area (guided by mSCOA regulations). Budgets are prepared for each functional area and the budget versus actual amounts are reported on a monthly basis. Information reported about these segments is used by management as a basis for evaluating the segments' performances and for making decisions about the allocation of resources. The disclosure of information about these segments is also considered appropriate for external reporting purposes.

The municipal departments were aggregated for reporting purposes as follow:

No	Reportable Segment	Goods and/or services delivered	Goods and/or services delivered
1	Public Safety	Fire Fighting and Protection Services	Fire Fighting and Protection Services
2	Planning and Development	Corporate wide strategic planning, economic development and technical project management services	Corporate wide strategic planning, economic development and technical project management services
3	Environmental Protection	Nature Conservation	Nature Conservation
4	Health	Municipal Health Services	Municipal Health Services
5	Road transport	Maintenance relating to Provincial Roads Infrastructure	Maintenance relating to Provincial Roads Infrastructure
6	Waste Water Management	Sewerage Services	Sewerage Services
7	Water Management	Water Services	Water Services
No	Non-Segments	Goods and/or services delivered	Goods and/or services delivered
1	Finance and administration	Supply administrative and related support to all segments. Provide and strengthen the overall governance.	Supply administrative and related support to all segments. Provide and strengthen the overall governance.

No segment disclosure has been prepared for JoGEDA, as the entity operates in one specific/operational unit in one geographical area.

65.2 Reporting on segment assets and liabilities

The Economic Entity has assessed that assets and liabilities associated with each segment is not used by management for decision making purposes, and neither is it being reported on. Assets and liabilities are utilised by management to assess key financial indicators for the Economic Entity as a whole. Accordingly, the assets and liabilities per segment is not required to be disclosed.

65.3 Geographic Segment Reporting

Although the Economic Entity operates in a number of geographical areas (local municipalities), the geographical information is not considered relevant to management for decision-making. The goods and services provided to the community throughout the entire municipal area are based on similar tariffs and service standards. Therefore, the Economic Entity has assessed that it operates in a single geographical area.

65.4 Measurement of specific segment information

The accounting policies of the respective segments are the same as those prescribed in the summary of significant accounting policies.

The Economic Entity had no changes the structure of its internal organisation in a manner that caused the composition of its reportable segments to change from the prior year.

Information about the surplus/(deficit) and capital expenditure of the respective segments are disclosed as follows:
